---

This emergency rulemaking action by the Department of Food and Agriculture repeals all existing Huanglongbing Disease Interior quarantine zones and establishes requirements for a quarantine area when the local Agricultural Commissioner is notified of the infestation and requests the establishment of the quarantine area. It establishes an appeal process for interested parties to challenge an area quarantine designation and a list serve subscription for purposes of receiving updates on changes in regional quarantine zones.

OAL approves this emergency regulatory action pursuant to sections 11346.1 and 11349.6 of the Government Code.

This emergency regulatory action is effective on 5/24/2018 and will expire on 11/21/2018. The Certificate of Compliance for this action is due no later than 11/20/2018.

An area shall be designated as under quarantine when all of the following criteria exist:

- (A) Survey results indicate an HLB infestation is present. An infestation of HLB disease is present when a single host plant tests positive for the disease organism.
- (B) The Department has defined the infested area. The initial area under quarantine shall be a minimum of a 5 mile radius surrounding the site of the plant that contains an HLB infestation. Commercial host properties shall not be split by the quarantine boundary line

and the boundary line shall be expanded beyond the 5 miles as necessary to encompass such host material in its entirety. Wherever possible, known accepted mapping features, including but not limited to roads, streets, highways, creeks, streams, rivers, canals, and city, county, state, park and forest boundary lines are used first, and if there are no acceptable features such as these then imaginary lines will be used with a beginning point and end point given as end or beginning or intersection of features or latitude and longitude.

(C) The local California County Agricultural Commissioner(s) is notified and requests the quarantine area be established.

(2) The Department shall provide electronic and/or written notification of the area designation(s) to other California County Agricultural Commissioners and other interested or affected parties and post the area description to its website at: [https://www.cdfa.ca.gov/plant/regs\\_hlb.html](https://www.cdfa.ca.gov/plant/regs_hlb.html). An interested party may go to the above website and elect to receive automatic notifications of any changes in quarantine areas through the list serve option.

(3) Satellite infestations. A detection of HLB disease within any established quarantine area may be considered a satellite infestation and may be used as the epicenter for an additional 5 mile radius surrounding the detection that modifies the border of the quarantine area.

(4) Any interested party or local entity may appeal an area quarantine designation by submission to the Department of a written request for review of the designation accompanied by clear and convincing evidence that the quarantine expansion does not meet the criteria specified to change the quarantine boundaries. The appeal must be submitted no later than ten (10) working days following publication of the notice of designation. The Department must respond with a written decision no later than ten (10) working days following receipt of the appeal. During the pending of the appeal, the designation under appeal shall remain in effect.
