The *California Regulatory Notice Register* is an official state publication of the Office of Administrative Law containing notices of proposed regulatory actions by state regulatory agencies to adopt, amend or repeal regulations contained in the California Code of Regulations. The effective period of a notice of proposed regulatory action by a state agency in the *California Regulatory Notice Register* shall not exceed one year [Government Code § 11346.4(b)]. It is suggested, therefore, that issues of the *California Regulatory Notice Register* be retained for a minimum of 18 months.

CALIFORNIA REGULATORY NOTICE REGISTER is published weekly by the Office of Administrative Law, 300 Capitol Mall, Suite 1250, Sacramento, CA 95814-4339. The Register is printed by Barclays, a subsidiary of West, a Thomson Reuters Business, and is offered by subscription for \$205.00 (annual price). To order or make changes to current subscriptions, please call (800) 328-4880. The Register can also be accessed at <http://www.oal.ca.gov>.

**PROPOSED ACTION ON
REGULATIONS**

Information contained in this document is published as received from agencies and is not edited by Thomson Reuters.

**TITLE 2. FAIR POLITICAL
PRACTICES COMMISSION**

NOTICE IS HEREBY GIVEN that the Fair Political Practices Commission, pursuant to the authority vested in it by Sections 82011, 87303, and 87304 of the Government Code to review proposed conflict-of-interest codes, will review the proposed/amended conflict-of-interest codes of the following:

CONFLICT-OF-INTEREST CODES

ADOPTION

MULTI-COUNTY: Owens Valley Groundwater Authority

AMENDMENT

STATE AGENCY: Business, Consumer Services and Housing Agency

A written comment period has been established commencing on May 25, 2018, and closing on July 9, 2018. Written comments should be directed to the Fair Political Practices Commission, Attention Sasha Linker, 1102 Q Street, Suite 3000, Sacramento, California 95811.

At the end of the 45-day comment period, the proposed conflict-of-interest code(s) will be submitted to the Commission's Executive Director for her review, unless any interested person or his or her duly authorized representative requests, no later than 15 days prior to the close of the written comment period, a public hearing before the full Commission. If a public hearing is requested, the proposed code(s) will be submitted to the Commission for review.

The Executive Director of the Commission will review the above-referenced conflict-of-interest code(s), proposed pursuant to Government Code Section 87300, which designate, pursuant to Government Code Section 87302, employees who must disclose certain investments, interests in real property and income.

The Executive Director of the Commission, upon her or its own motion or at the request of any interested person, will approve, or revise and approve, or return the proposed code(s) to the agency for revision and re-submission within 60 days without further notice.

Any interested person may present statements, arguments or comments, in writing to the Executive Director of the Commission, relative to review of the proposed conflict-of-interest code(s). Any written comments must be received no later than July 9, 2018. If a public hearing is to be held, oral comments may be presented to the Commission at the hearing.

COST TO LOCAL AGENCIES

There shall be no reimbursement for any new or increased costs to local government which may result from compliance with these codes because these are not new programs mandated on local agencies by the codes since the requirements described herein were mandated by the Political Reform Act of 1974. Therefore, they are not "costs mandated by the state" as defined in Government Code Section 17514.

**EFFECT ON HOUSING COSTS
AND BUSINESSES**

Compliance with the codes has no potential effect on housing costs or on private persons, businesses or small businesses.

AUTHORITY

Government Code Sections 82011, 87303 and 87304 provide that the Fair Political Practices Commission as the code-reviewing body for the above conflict-of-interest codes shall approve codes as submitted, revise the proposed code and approve it as revised, or return the proposed code for revision and re-submission.

REFERENCE

Government Code Sections 87300 and 87306 provide that agencies shall adopt and promulgate conflict-of-interest codes pursuant to the Political Reform Act and amend their codes when change is necessitated by changed circumstances.

CONTACT

Any inquiries concerning the proposed conflict-of-interest code(s) should be made to Sasha Linker, Fair Political Practices Commission, 1102 Q Street, Suite 3000, Sacramento, California 95811, telephone (916) 322-5660.

AVAILABILITY OF PROPOSED
CONFLICT-OF-INTEREST CODES

Copies of the proposed conflict-of-interest codes may be obtained from the Commission offices or the respective agency. Requests for copies from the Commission should be made to Sasha Linker, Fair Political Practices Commission, 1102 Q Street, Suite 3000, Sacramento, California 95811, telephone (916) 322-5660.

**TITLE 3. DEPARTMENT OF
PESTICIDE REGULATION**

Ground Water Protection Areas
DPR Regulation No. 18-001

NOTICE OF PROPOSED REGULATORY ACTION

The Department of Pesticide Regulation (DPR) proposes to amend section 6000 of Title 3, California Code of Regulations (3 CCR). This proposed action amends the document, EH03-05 (Est. 08/03) "Ground Water Protection Areas" that identifies ground water protection areas (GWPA) in California. DPR proposes to add new GWPA to this document. These GWPA have been identified based on pesticide detections. This document is incorporated by reference in the definitions "ground water protection area," "leaching ground water protection areas," and "runoff ground water protection areas." A copy of the proposed document is included in the rulemaking file and available upon request.

SUBMITTAL OF COMMENTS

Any interested person may present comments in writing about the proposed action to the agency contact person named below. Written comments must be received no later than 5:00 p.m. on July 9, 2018. Comments regarding this proposed action may also be transmitted via e-mail to <dpr18001@cdpr.ca.gov> or by facsimile at 916-324-1491.

A public hearing is not scheduled. However, one will be scheduled if any interested person submits a written request to DPR no later than 15 days prior to the close of the written comment period.¹

¹ If you have special accommodation or language needs, please include this in your request for a public hearing. TTY/TDD speech-to-speech users may dial 7-1-1 for the California Relay Service.

EFFECT ON SMALL BUSINESS

DPR has determined that the proposed regulatory action does affect small businesses.

INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW

DPR protects human health and the environment by regulating pesticide sales and use and by fostering reduced-risk pest management. DPR's strict oversight includes: product evaluation and registration; statewide licensing of commercial and private pesticide applicators, pest control businesses, dealers, and advisers; environmental monitoring; and residue testing of fresh produce. This statutory scheme is set forth primarily in Food and Agricultural Code (FAC) Divisions 6 and 7.

The Pesticide Contamination Prevention Act (Act) (Statutes of 1985, Chapter 1298) added Article 15 (sections 13141-13152) to Chapter 2 of Division 7 of the FAC. The purpose of the Act is to prevent pesticide pollution of California's ground water aquifers that may be used to supply drinking water.

The Act requires DPR to conduct soil and ground water monitoring for pesticides listed in 3 CCR section 6800(b), maintain a database of wells sampled for pesticide residues, and formally review the continued use of pesticides found in ground water as the result of legal agricultural use. 3 CCR section 6800(a) currently consists of a list of seven chemicals — atrazine, simazine, bromacil, diuron, prometon, bentazon, and norflurazon — that have been detected in ground water or soil pursuant to FAC section 13149. FAC section 13150 allows the continued sale and use of these chemicals provided that certain conditions have been met.

Section 6000 includes definitions for: GWPA, an area of land that has been determined by the Director to be sensitive to the movement of pesticides to ground water; leaching GWPA, areas of land where pesticide residues move from the soil surface downward through the soil matrix with percolating water to ground water; and runoff GWPA, areas of land where pesticide residues are carried in runoff water to more direct routes to ground water such as dry or drainage wells, poorly sealed production wells, soil cracks, or to areas where leaching can occur. DPR has identified these areas of land where ground water contaminations have been detected and are currently identified in the DPR document EH03-05 (Est. 08/03) entitled "Ground Water Protection Areas" that is incorporated by reference within these definitions.

One method used to establish GWPAs are detections of active ingredients listed in section 6800(a) or their degradation products due to legal agricultural use in one well in a section that is adjacent to an existing GWPA; or two or more wells within a four-section area that is not adjacent to an existing GWPA. DPR has identified 121 additional GWPAs based on pesticide detections.

DPR proposes to amend the document, EH03-05 (Est. 08/03) entitled “Ground Water Protection Areas” by adding 121 GWPAs, and identifying each area as either a leaching GWPA or runoff GWPA as defined by section 6000. DPR proposes to retitle the document to “Ground Water Protection Areas 2017 (Rev. 8/17),” incorporated by reference.

Adoption of this regulation will be a benefit to the environment. It will protect ground water from contamination resulting from the agricultural use of pesticides, thus preventing pesticide pollution of California’s ground water aquifers that may be used to supply drinking water.

During the process of developing these regulations, DPR conducted a search of any similar regulations on this topic and concluded that the proposed regulation is not inconsistent or incompatible with existing state regulations. DPR is the only agency that has the authority to regulate the sale and use of pesticides.

IMPACT ON LOCAL AGENCIES OR SCHOOL DISTRICTS

DPR determined that the proposed regulatory action does not impose a mandate on local agencies or school districts. DPR also determined that there are no costs to any local agency or school district requiring reimbursement pursuant to Government Code section 17500 et seq. DPR has determined that some nondiscretionary costs or savings imposed upon local agencies may result from the proposed regulation action. In rural counties where most GWPAs are located, the suppression of weeds along county roads is generally assigned to the county agricultural commissioner’s Office. Applications of section 6800(a)-listed chemicals in the proposed GWPAs will be prohibited if certain criteria designed to prevent leaching and runoff cannot be met. Alternative pesticides and/or revised weed management practices may be needed in some situations. Alternative methods are available. The funds needed for this purpose are paid from the county transportation road maintenance budgets. Any additional costs required by the mitigation measures would therefore need to be incorporated into the affected counties’ maintenance budgets.

This analysis assumes that the share of county roads that fall within the boundaries of the proposed GWPAs

is uniform across the counties, and that cost per sprayed acre is equal for all affected counties. DPR estimates that the mitigation and other regulatory costs of the proposed regulation for the 15 counties is \$18,288.

COSTS OR SAVINGS TO STATE AGENCIES

DPR determined that no savings or increased costs to any state agency will result from the proposed regulatory action.

EFFECT ON FEDERAL FUNDING TO THE STATE

DPR determined that no costs or savings in federal funding to the state will result from the proposed action.

EFFECT ON HOUSING COSTS

DPR made an initial determination that the proposed action will have no effect on housing costs.

SIGNIFICANT STATEWIDE ADVERSE ECONOMIC IMPACT DIRECTLY AFFECTING BUSINESSES

DPR has made an initial determination that adoption of this regulation will not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states. It is likely to have adverse economic impacts within the 15 counties with proposed GWPAs. Flexibility was built into the proposal to give businesses options that would best fit their individual situations and still ensure ground water is protected. DPR made this determination based on an economic impact assessment that is listed in the “Documents Relied Upon” section of the Initial Statement of Reasons for this proposed regulatory action and is available from DPR.

COST IMPACTS ON REPRESENTATIVE PRIVATE PERSONS OR BUSINESSES

Businesses may be impacted if they conduct vegetation management programs using section 6800(a)-listed chemicals in areas that are designated as GWPAs. Applications of section 6800(a)-listed chemicals will be prohibited in GWPAs if certain criteria designed to prevent runoff and leaching cannot be met. Some businesses are already meeting those criteria with current practices while others will need to revise weed management practices and/or use alternative pesticides in some situations.

The impacts will affect growers who use section 6800(a)–listed chemicals primarily on six crops within the proposed GWPA. These crops are alfalfa, almonds, grapes, oranges, peas, and walnuts. The peak annual cost, estimated to be \$11,281, is expected to occur in the first year of the regulations, with recurrent annual cost impacts of \$11,043 in subsequent years. Impacts on affected grape (except wine) and walnut growers, which account for 86 percent of the total cost impacts, are estimated to be \$2 per acre.

Growers who farm crops within the designated areas can expect to see minor increases in operating costs that will result in reductions of gross revenues. The level of reductions in gross revenue is not expected to result in noticeable shifts in crop selection both because the reduction is expected to be minor and most of the crops affected are permanent crops.

RESULTS OF THE ECONOMIC IMPACT ANALYSIS

Impact on the Creation, Elimination, or Expansion of Jobs/Businesses: DPR determined it is not likely the proposed regulatory action will impact the creation or elimination of jobs, the creation of new businesses or the elimination of existing businesses, or the expansion of businesses currently doing business within the State of California.

The proposed regulations are not expected to have a significant adverse effect on employment. Minor changes in either direction are possible. If the selected mitigation practices result in a net increase of additional chemical treatments, there could be some increase in demand for labor. However, this should not be sufficient to lead to a permanent increase in the number of jobs. The proposed regulation is not expected to have any impact on the creation or elimination of businesses. Any additional costs resulting from changes in application practices or pesticides selected should not have a significant adverse economic impact on farmers. Pesticide dealers currently selling listed chemicals may experience some decreased sales that might be offset by increased sales from alternative substituted chemicals.

Adopting this regulation will be a benefit to the environment. It will protect ground water from contamination resulting from the agricultural use of pesticides, thus preventing pesticide pollution of California's ground water aquifers that may be used to supply drinking water.

CONSIDERATION OF ALTERNATIVES

DPR must determine that no reasonable alternative considered by the agency, or that has otherwise been identified and brought to the attention of the agency, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed regulatory action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of the law.

AUTHORITY

This regulatory action is taken pursuant to the authority vested by FAC sections 11456, 12976, 13145, and 14102.

REFERENCE

This regulatory action is to implement, interpret, or make specific FAC sections 13145, 13150, 14001, 14102, 14004.5, and 14006.

AVAILABILITY OF STATEMENT OF REASONS AND TEXT OF PROPOSED REGULATIONS

DPR prepared an Initial Statement of Reasons and is making available the express terms of the proposed action, all of the information upon which the proposal is based, and a rulemaking file. A copy of the Initial Statement of Reasons and the proposed text of the regulation may be obtained from the agency contact person named in this notice. The information upon which DPR relied in preparing this proposal and the rulemaking file are available for review at the address specified below.

AVAILABILITY OF CHANGED OR MODIFIED TEXT

After the close of the comment period, DPR may make the regulation permanent if it remains substantially the same as described in the Informative Digest. If DPR does make substantial changes to the regulation, the modified text will be made available for at least 15 days prior to adoption. Requests for the modified text should be addressed to the agency contact person named in this notice. DPR will accept written comments on any changes for 15 days after the modified text is made available.

AGENCY CONTACT

Written comments about the proposed regulatory action; requests for a copy of the Initial Statement of Rea-

sons, and the proposed text of the regulation; and inquiries regarding the rulemaking file may be directed to:

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

CA 18-01

CAARP proposes to update the current Credit/Debit Card Authorization Form to be consistent with other CAARP/LCA Forms. The changes will also allow forms to be universal and not have to be updated when there are administrative changes. This will lead to cost savings, consistency and ensuring applicants obtain insurance in a timely manner.

These changes include:

- Removal of the Plan mailing address, phone and fax numbers, e-mail and website addresses, and regional manager information from the heading eliminates the need to revise this form when any of this information changes.
- The Credit/Debit Card Payment Authorization Receipt will continue to be printed with the Low Cost application when the electronic payment option is chosen. Plan contact information is provided on the Low Cost application.
- The cardholder is no longer required to be physically present in the producer's office at the time of application completion and provide photo identification. Elimination of this requirement will facilitate the online process by which consumers can purchase Low Cost Auto insurance online using the Primary Online Producer (POP).
- The producer is no longer required to certify the identity of the cardholder, the name on the credit or debit card, that the transaction was authorized by the cardholder, and that the cardholder was physically present when the form was signed.
- Instructions in the new Producer Instructions field include a broad reference to the method for submission of the Credit/Debit Card Payment Authorization Receipt Form, the Low Cost application, and supporting documentation. Producers will continue to use the electronic scan/upload feature provided for use with Electronic Application Submission Interface when the electronic payment option is chosen. If the technology changes in the future, this form will not require revision.
- The Credit/Debit Card Payment Authorization Receipt Form will continue to be used by both CAARP and Low Cost applicants who choose to pay their deposit electronically by credit or debit card.

CA 18-02

Producer certification requirements include the completion of a producer course as a condition for certification and as an ongoing requirement to maintain certification in good standing. Newly certified producers must complete the requirement within four months after being granted certification by the Plan. Producers who are currently certified must complete the educational requirement at least once every four years to maintain their producer certification status.

When producer certification was introduced in 1995, in-person producer courses were held at various locations throughout the state of California. In the recent past, the Plan transitioned to a series of four online courses offered by Lunchtime CE at a charge to the producer. The online courses were more flexible for producers to incorporate into their work schedule and eliminated the need to travel. However the cost for the program has increased and the vendor has indicated that the increases will continue into the future.

CAARP has developed its own online producer course. CAARP proposes to offer the course through its own website. This will allow the content of the course to be updated as needed. The course will be available to producers at no charge. Producers will be able to access the course whenever they choose to do so.

CA 18-03

Under CAARP rules, a private passenger applicant with earned premium due on a prior Plan policy is not eligible to reapply unless they submit the earned premium in addition to their deposit at the time of application.

CAARP proposes to allow an insurer to apply the application deposit to the outstanding earned premium owed on a prior personal auto policy. The policy would be revised to permit the insurer to issue a new policy and a cancellation notice when the deposit is not sufficient to cover the earned premium.

COMPARABLE FEDERAL LAW

There are no comparable existing federal regulations or statutes.

LOCAL MANDATE DETERMINATION

The Insurance Commissioner has initially determined that the application will not result in any new program mandates on local agencies or school districts.

MANDATES ON LOCAL AGENCIES OR SCHOOL DISTRICTS OR COSTS WHICH MUST BE REIMBURSED PURSUANT TO GOVERNMENT CODE SECTIONS 17500 THROUGH 17630

The Insurance Commissioner has initially determined that the application will not result in any cost or significant savings to any local agency or school district for which Part 7 (commencing with Section 17500) of Division 4 of the Government Code would require reimbursement, or in other nondiscretionary costs or savings to local agencies.

COST OR SAVINGS TO ANY STATE AGENCY; FEDERAL FUNDING

The Commissioner has determined that the application will result in no cost or savings to any state agency and no cost or savings in federal funding to the state.

SIGNIFICANT STATEWIDE ADVERSE ECONOMIC IMPACT ON BUSINESSES AND THE ABILITY OF CALIFORNIA BUSINESSES TO COMPETE

The Commissioner has initially determined that the proposal will not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states. This proposal will have no effect on the creation or elimination of jobs in California, the creation of new businesses, the elimination of existing businesses in California, or the expansion of businesses in California.

COST IMPACTS ON PRIVATE PERSONS OR ENTITIES

The Insurance Commissioner has initially determined that the proposal will not affect private persons or entities.

IMPACT ON HOUSING COSTS

The Insurance Commissioner has initially determined that the application will not affect housing costs.

IMPACT ON SMALL BUSINESS

The proposed rate changes could affect small businesses.

SPECIFIC TECHNOLOGIES OR EQUIPMENT

The application would not mandate the use of specific technologies or equipment.

ALTERNATIVES

The Insurance Commissioner must determine that no reasonable alternative considered by the agency, or that has otherwise been identified and brought to the attention of the agency, would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

PLAIN ENGLISH

The application describing the proposal is in plain English. However, the application itself is based on technical actuarial principles.

TEXT AND INITIAL STATEMENT OF REASONS

The Department has prepared an Initial Statement of Reasons addressing the proposed rate application in addition to the Informative Digest included in this notice. The Initial Statement of Reasons, Notice of Proposed Action and Regulation Text are available for inspection or copying, and will be provided at no charge upon request to the contact person listed above. Further details on CAARP's proposal are on file with the Commissioner and available for review as set forth below.

FINAL STATEMENT OF REASONS

A Final Statement of Reasons will be prepared at the conclusion of this proceeding. Upon written or e-mail request to the contact person listed above, the Final Statement of Reasons will be made available for inspection and copying once it has been prepared. A copy of the Final Statement of Reasons will also be posted on the Department's website.

ACCESS TO RULEMAKING FILE

Any interested person may inspect a copy of or direct questions about CAARP's application, the statement of reasons, and any supplemental information contained in the rulemaking file by contacting the contact person listed above. **By prior appointment**, the rulemaking file is available for inspection at 45 Fremont Street, 21st Floor, San Francisco, California 94105, between the

hours of 9:00 a.m. and 4:30 p.m. Monday through Friday.

AUTOMATIC MAILING

A copy of this Notice, including the Informative Digest, is being sent to all persons on the Insurance Commissioner's mailing list.

AVAILABILITY OF DOCUMENTS ON THE INTERNET

The Initial Statement of Reasons, proposed text, and this Notice of Proposed Action will be published online and may be accessed through the Department's website at www.insurance.ca.gov.

AVAILABILITY OF MODIFIED TEXT OF REGULATIONS

If the Department amends the application with changes that are sufficiently related to the original application, the Department will make the full text of the amended rates, with the changes clearly indicated, available to the public for at least 15 days before the date the Department adopts the amended rates.

**INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW**

CA 18-04

There has been a rapid emergence of Transportation Network Companies (TNCs). These TNCs facilitate arrangement of transportation services, generally utilizing smart phone applications or digital networks. This activity is commonly known as ride-sharing or ride-hailing.

The insurance issues associated with ride-sharing activities arise because the TNC drivers use their own personal cars for transporting members of the public. This activity has traditionally been the realm of commercial taxis. The Private Passenger Auto Policy excludes coverage for this exposure.

CAARP proposes reinforcing the medical payments and uninsured motorists public or livery conveyance exclusions and introducing a liability exclusion to explicitly exclude any coverages for an insured while logged into a “transportation technology platform” as a driver, whether or not a passenger is occupying the vehicle. This proposal would introduce a Commercial Auto Policy public or livery passenger conveyance exclusion to exclude any liability, medical payments, and uninsured motorists coverages for an insured while logged into a “transportation network platform” as a driver, whether or not a passenger is occupying the vehicle. This exclusion will apply to all vehicles except public transportation risks. The proposal would amend the manual definition of private passenger auto to clarify that it includes autos that are used for both private passenger purposes and for ride-sharing and/or vehicle-sharing activities but that the ride-sharing and personal vehicle-sharing activities are not covered. The leasing and rental requirements do not apply to vehicle-sharing program facilitators.

COMPARABLE FEDERAL LAW

There are no comparable existing federal regulations or statutes.

LOCAL MANDATE DETERMINATION

The Insurance Commissioner has initially determined that the application will not result in any new program mandates on local agencies or school districts.

**MANDATES ON LOCAL AGENCIES OR
SCHOOL DISTRICTS OR COSTS WHICH MUST
BE REIMBURSED PURSUANT TO
GOVERNMENT CODE SECTIONS 17500
THROUGH 17630**

The Insurance Commissioner has initially determined that the application will not result in any cost or significant savings to any local agency or school district for which Part 7 (commencing with Section 17500) of Division 4 of the Government Code would require reimbursement, or in other nondiscretionary costs or savings to local agencies.

**COST OR SAVINGS TO ANY STATE AGENCY;
FEDERAL FUNDING**

The Commissioner has determined that the application will result in no cost or savings to any state agency and no cost or savings in federal funding to the state.

**SIGNIFICANT STATEWIDE ADVERSE
ECONOMIC IMPACT ON BUSINESSES AND
THE ABILITY OF CALIFORNIA BUSINESSES
TO COMPETE**

The Commissioner has initially determined that the proposal will not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states. This proposal will have no effect on the creation or elimination of jobs in California, the creation of new businesses, the elimination of existing businesses in California, or the expansion of businesses in California.

**COST IMPACT ON PRIVATE PERSONS
OR ENTITIES**

The Insurance Commissioner has initially determined that the proposal will not affect private persons or entities.

IMPACT ON HOUSING COSTS

The Insurance Commissioner has initially determined that the application will not affect housing costs.

IMPACT ON SMALL BUSINESS

The proposed rate changes could affect small businesses.

SPECIFIC TECHNOLOGIES OR EQUIPMENT

The application would not mandate the use of specific technologies or equipment.

ALTERNATIVES

The Insurance Commissioner must determine that no reasonable alternative considered by the agency, or that has otherwise been identified and brought to the attention of the agency, would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.

PLAIN ENGLISH

The application describing the proposal is in plain English. However, the application itself is based on technical actuarial principles.

TEXT AND INITIAL STATEMENT OF REASONS

The Department has prepared an Initial Statement of Reasons addressing the proposed rate application in addition to the Informative Digest included in this notice. The Initial Statement of Reasons, Notice of Proposed Action and Regulation Text are available for inspection or copying, and will be provided at no charge upon request to the contact person listed above. Further details on CAARP's proposal are on file with the Commissioner and available for review as set forth below.

FINAL STATEMENT OF REASONS

A Final Statement of Reasons will be prepared at the conclusion of this proceeding. Upon written or e-mail request to the contact person listed above, the Final Statement of Reasons will be made available for inspection and copying once it has been prepared. A copy of the Final Statement of Reasons will also be posted on the Department's website.

ACCESS TO RULEMAKING FILE

Any interested person may inspect a copy of or direct questions about CAARP's application, the statement of reasons, and any supplemental information contained in the rulemaking file by contacting the contact person listed above. **By prior appointment**, the rulemaking file is available for inspection at 45 Fremont Street, 21st Floor, San Francisco, California 94105, between the

hours of 9:00 a.m. and 4:30 p.m. Monday through Friday.

AUTOMATIC MAILING

A copy of this Notice, including the Informative Digest, is being sent to all persons on the Insurance Commissioner's mailing list.

AVAILABILITY OF DOCUMENTS ON THE INTERNET

The Initial Statement of Reasons, proposed text, and this Notice of Proposed Action will be published online and may be accessed through the Department's website at www.insurance.ca.gov.

AVAILABILITY OF MODIFIED TEXT OF REGULATIONS

If the Department amends the application with changes that are sufficiently related to the original application, the Department will make the full text of the amended rates, with the changes clearly indicated, available to the public for at least 15 days before the date the Department adopts the amended rates.

TITLE 10. DEPARTMENT OF INSURANCE

REG-2018-00002

INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW

LC 18-01

CAARP proposes to update the current Credit/Debit Card Authorization Form to be consistent with other CAARP/LCA Forms. The changes will also allow

forms to be universal and not have to be updated when there are administrative changes. This will lead to cost savings, consistency and ensuring applicants obtain insurance in a timely manner.

These changes include:

- Removal of the Plan mailing address, phone and fax numbers, e-mail and website addresses, and regional manager information from the heading eliminates the need to revise this form when any of this information changes.
- The Credit/Debit Card Payment Authorization Receipt will continue to be printed with the Low Cost application when the electronic payment option is chosen. Plan contact information is provided on the Low Cost application.
- The cardholder is no longer required to be physically present in the producer’s office at the time of application completion and provide photo identification. Elimination of this requirement will facilitate the online process by which consumers can purchase Low Cost Auto insurance online using the Primary Online Producer (POP).
- The producer is no longer required to certify the identity of the cardholder, the name on the credit or debit card, that the transaction was authorized by the cardholder, and that the cardholder was physically present when the form was signed.
- Instructions in the new Producer Instructions field include a broad reference to the method for submission of the Credit/Debit Card Payment Authorization Receipt Form, the Low Cost application, and supporting documentation. Producers will continue to use the electronic scan/upload feature provided for use with the Electronic Application Submission Interface when the electronic payment option is chosen. If the technology changes in the future, this form will not require revision.
- The Credit/Debit Card Payment Authorization Receipt Form will continue to be used by both CAARP and Low Cost applicants who choose to pay their deposit electronically by credit or debit card.

LC 18-02

There has been a rapid emergence of Transportation Network Companies (TNCs). These TNCs facilitate arrangement of transportation services, generally utilizing smart phone applications or digital networks. This activity is commonly known as ride-sharing or ride-hailing.

The insurance issues associated with ride-sharing activities arise because the TNC drivers use their own personal cars for transporting members of the public. This

activity has traditionally been the realm of commercial taxis. The Private Passenger Auto Policy excludes coverage for this exposure.

CAARP proposes reinforcing the medical payments and uninsured motorists public or livery conveyance exclusions and introducing a liability exclusion to explicitly exclude any coverages for an insured while logged into a “transportation technology platform” as a driver, whether or not a passenger is occupying the vehicle.

LC 18-03

A review of the Low Cost Automobile Insurance Policy found that it was unclear that eligible household members are required to be licensed.

CAARP proposes amending the, “Who Is An Insured” provision of the application to include “any ‘licensed’ *household member*. . .”. This will clarify that any household member covered by the policy must be a licensed driver.

COMPARABLE FEDERAL LAW

There are no comparable existing federal regulations or statutes.

LOCAL MANDATE DETERMINATION

The Insurance Commissioner has initially determined that the proposal will not result in any new program mandates on local agencies or school districts.

MANDATES ON LOCAL AGENCIES OR SCHOOL DISTRICTS OR COSTS WHICH MUST BE REIMBURSED PURSUANT TO GOVERNMENT CODE SECTIONS 17500 THROUGH 17630

The Insurance Commissioner has initially determined that the proposal will not result in any cost or significant savings to any local agency or school district for which Part 7 (commencing with Section 17500) of Division 4 of the Government Code would require reimbursement, or in other nondiscretionary costs or savings to local agencies.

COST OR SAVINGS TO ANY STATE AGENCY; FEDERAL FUNDING

The Commissioner has determined that the proposed regulation will result in no cost or savings to any state agency and no cost or savings in federal funding to the state.

SIGNIFICANT STATEWIDE ADVERSE
ECONOMIC IMPACT ON BUSINESSES AND
THE ABILITY OF CALIFORNIA BUSINESSES
TO COMPETE

The Commissioner has initially determined that the proposal will not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states. This proposal will have no effect on the creation or elimination of jobs in California, the creation of new businesses, the elimination of existing businesses in California, or the expansion of businesses in California.

COST IMPACT ON PRIVATE PERSONS

The Insurance Commissioner has initially determined that the proposal will not affect private persons or entities.

IMPACT ON HOUSING COSTS

The Insurance Commissioner has initially determined that the proposal will not affect housing costs.

IMPACT ON SMALL BUSINESS

The Insurance Commissioner has initially determined that the proposal will not affect small business.

SPECIFIC TECHNOLOGIES OR EQUIPMENT

The Insurance Commissioner has initially determined that specific technologies or equipment will be needed.

ALTERNATIVES

The Insurance Commissioner must determine that no reasonable alternative considered by the agency, or that has otherwise been identified and brought to the attention of the agency, would be more effective in carrying out the purpose for which the action is proposed or would be as effective as and less burdensome to affected private persons than the proposed action.

STATUTORY AUTHORITY AND REFERENCE
(Gov. Code Section 11346.5(a)(2))

The commission proposes to update its siting and procedure regulations under the authority of Public Resources Code sections 25210, 25213, and 25218(e), and of Title 20, California Code of Regulations section 1222(a). The proposed regulations would implement, interpret, or make specific provisions of the following laws:

- Public Resources Code sections 21061.1, 21080.1, 21080.5, 21081, 21082, 21092, 21100, 21105, 21108, 25205, 25210, 25211, 25213, 25214, 25216.3, 25216.5, 25217, 25218, 25223, 25321, 25362, 25502, 25505, 25506, 25506.5, 25507, 25509, 25519, 25520, 25521, 25522, 25523, 25525, 25526, 25527, 25529, 25532, 25534, 25534.1, 25538, 25539, 25540, 25540.1, 25540.2, 25540.3, 25541, 25541.5, 25802, 25806, 25900, 25967, 25983
- Government Code sections 11104.5, 11129, 11180, 11513, 11515
- 14 California Administration Code section 15085.5(i)
- Title 14, California Code of Regulations sections 15000, 15022, 15091, 15093, 15160, 15164, 15165, 15166

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

(Gov. Code Section 11346.5(a)(3))

Current regulations set forth in title 20 sections 1200–1209 provide for processes and procedures applicable to all commission proceedings such as power plant licensing, rulemakings, enforcement actions, policy report adoptions and other proceedings. Current regulations set forth in sections 1210–1216 provide additional processes and procedures specific to adjudicatory proceedings such as power plant licensing and enforcement actions. Current regulations contain provisions in the 1700s and 1900s covering the filing and review of applications for small power plant exemptions. Current regulations set forth in sections 2301–2309 implement the Environmental Quality Act of 1970. Currently section 1769 provides for the evaluation and approval of amendments to power plants licensed under the commission’s jurisdiction. Current laws also provide for the imposition of fees related to the licensing and operations of power plants under the commission’s jurisdiction.

This rulemaking addresses four distinct areas of the commission’s title 20 regulations. The first part encompasses refinements to the regulatory language changes which were developed under the comprehensive 2015 process and procedure updates under docket 15–OIR–01. With the updated language now in practice, real world experience has resulted in the identification of text where language refinements will improve the regulations. Grammatical changes have also been made for consistency within the regulations.

The second part of the rulemaking restructures the regulations so that the small power plant exemption process is no longer partially spread between the 1700s and 1900s but contained within the 1900s. While there are no substantive changes, consolidating the process in one article will make following the small power plant process easier.

The third part of the rulemaking amends or repeals sections 2301 to 2309 which are obsolete and addressed through the commission’s certified regulatory program or the California Environmental Quality Act Guidelines, California Code of Regulations Title 14, Chapter 3.

The fourth part of this rulemaking amends sections 1708 and 1769 and adds section 1769.1. Section 1708 explains the statutory processing fee the commission charges power plant owners for the processing of amendments. The changes to section 1769 and the addition of section 1769.1 update how power plant facility amendments are reviewed and approved. The language provides more flexibility and efficiency for the review and approval of certain types of amendments that would not impact the environment. The language also creates a subset of amendments that commission staff and the project owner can jointly initiate.

The proposed language changes resulted from a multifaceted effort by commission staff to engage stakeholders, especially on the issues of power plant project amendments, to understand barriers to efficient amendment review and approval while ensuring public engagement. In response to stakeholder comments on the existing section 1769, commission staff performed a comprehensive review of the power plant amendment process and developed language that addresses identified issues.

The proposed revisions cover commission-specific proceedings and processes. The commission has conducted a search of any similar regulations on this topic and has concluded that these regulations are not inconsistent or incompatible with existing state regulations.

The objective and anticipated benefits of the language changes is to achieve procedures that are functional, efficient and fair for both those who have regular business with the commission and for those who infrequently engage the commission. The refinements to the recently amended language will provide added clarity, the repeal of obsolete language covering environmental review will improve the readability of the regulations and remove inconsistencies, and finally the updates to the language covering how power plant amendments are processed and approved will provide a more streamlined process for facility changes that do not impact the environment.

DOCUMENTS INCORPORATED
BY REFERENCE
(1 CCR Section 20(c)(3))

There are no documents incorporated by reference.

FEDERAL LAW
(Gov. Code Section 11346.2(c); 11346.9)

The proposed revisions are not mandated by federal law, and do not conflict with any federal law or other statutory requirements.

LOCAL MANDATE DETERMINATION
(Gov. Code Section 11346.5(a)(5))

The proposed regulations do not impose a mandate on local agencies or school districts.

FISCAL IMPACTS
(Gov. Code Section 11346.5(a)(6))

- Cost to any local agency or school district requiring reimbursement pursuant to Government Code section 17500 et seq.

Staff is unaware of any cost impacts that a local agency or school district would incur in compliance with the proposed action, as the changes are to process, procedural in nature, and are specific to commission activities and proceedings. No school district or local agency has informed the commission of any costs associated with the proposed regulatory language changes. No school district, and few local agencies, would be seeking a license, or amending a license, to build and operate a power plant under the commission’s jurisdiction, so most of the proposed regulation changes have no applicability to either type of entity.

- Cost or savings to any state agency.

Staff is unaware of any cost impacts that a state agency would incur in compliance with changes to the process and procedure regulations. The proposed regulations do not change any existing requirement or impose a new requirement on any state agency. No state agency has informed the commission of any costs associated with the proposed regulatory language changes. While proposed changes to section 1708 relate to an existing fee for processing power plant amendments, which will help compensate the commission for the actual work performed to evaluate and process the amendment, the fee is imposed by statute (Public Resources Code section 25806(e)). The regulations themselves do not create the fee, set the initial filing amount or set the maximum that can be collected.

- Other non-discretionary cost or savings imposed upon local agencies.

Staff is unaware of any cost impacts that a local agency would incur in compliance with changes to the process and procedure regulations. The proposed regulations do not change any existing requirement or impose a new requirement on any local agency. No local agency has informed the commission of any costs associated with the proposed regulatory language changes.

- Cost or savings in federal funding to the state.

Staff is unaware of any cost or savings impacts on federal funding that would result from changes to its process and procedure regulations.

HOUSING COSTS
(Gov. Code Section 11346.5(a)(12))

Staff is unaware of any cost impacts to housing from the proposed regulations which have no relation to the permitting, building or repair of housing.

SIGNIFICANT STATEWIDE ADVERSE
ECONOMIC IMPACT DIRECTLY AFFECTING
BUSINESS, INCLUDING ABILITY TO COMPETE

(Gov. Code Sections 11346.3(a), 11346.5(a)(7) and 11346.5(a)(8))

Staff has made an initial determination that the revised regulations will not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states.

STATEMENT OF THE RESULTS OF THE
ECONOMIC IMPACT ASSESSMENT
(Gov. Code Sections 11346.5(a)(10) and 11346.3(b))

Based on the procedural and clarifying nature of the proposed changes, no additional costs or economic impacts have been identified or are anticipated. While the proposed regulatory language in section 1708 covers an existing processing fee, the fee is imposed by statute on facility owners who are seeking amendments to their licenses (Public Resources Code section 25806(e)). Proposed section 1708 complements the statute by identifying the commission activities which fall within the reimbursable processing of the petition to amend work. The statute already sets the amount of deposit required: \$5000; the activity that is billable; actual cost of processing a petition to amend; and the maximum amount charged: \$750,000. The other proposed changes improve internal process, especially how power plant amendments are reviewed and approved.

(A) The creation or elimination of jobs within the state.

There is no information in the record and staff is unaware of any reason why the proposed changes would have any impact on jobs in California. The changes are process and procedural in nature, and are specific to commission activities and proceedings.

(B) The creation of new businesses or the elimination of existing businesses within the state.

There is no information in the record and staff is unaware of any reason why the proposed changes would have any impact on the creation or elimination of businesses in California.

(C) The expansion of businesses currently doing business within the state.

There is no information in the record and staff is unaware of any reason why the proposed changes would have any impact on the expansion of businesses in California.

(D) The benefits of the regulation to the health and welfare of California residents, worker safety, and the state's environment.

The proposed changes to the regulations attempt to improve the functionality of the commission's regulations and improve the process for the evaluation and approval of amendments to power plants. The proposed changes do not impact the health and welfare or worker safety of California residents or the state's environment.

COST IMPACTS ON REPRESENTATIVE PERSON
OR BUSINESS
(Gov. Code Section 11346.5(a)(9))

Staff is unaware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action. While the proposed regulatory language covers an existing processing fee, the fee is imposed by statute on facility owners seeking to amend their license (Public Resources Code section 25806(e)). Proposed section 1708 complements the statute by identifying the commission activities which fall within the reimbursable processing of the petition to amend work. The statute already sets the amount of deposit required: \$5,000; the activity that is billable; actual cost of processing a petition to amend; and the maximum amount charged: \$750,000. The other proposed changes improve internal process, especially how power plant amendments are reviewed and approved or harmonize the general complaint and the Renewable Portfolio Standard complaint process.

BUSINESS REPORT
(Gov. Code Sections 11346.5(a)(11) and 11346.3(d))

The proposed changes would not require a report to be made or create new reporting requirements.

SMALL BUSINESS IMPACTS
(1 CCR Section 4(a) and (b))

The proposed regulations do not affect small businesses for the same reasons the proposed regulations do not impose economic impacts on any businesses, school districts, local agencies and other state agencies. While the proposed regulatory language covers an existing processing fee, the fee is imposed by statute on facility owners seeking to amend their licenses (Public Resources Code section 25806(e)). Few small businesses own or operate power plants of the size licensed by the commission.

Proposed section 1708 complements the statute by identifying the commission activities which fall within the reimbursable processing of the petition to amend work. The statute already sets the amount of deposit required: \$5,000; the activity that is billable; actual cost of processing a petition to amend; and the maximum amount charged: \$750,000. The other proposed changes improve internal process, especially how power plant amendments are reviewed and approved or harmonize the general complaint and the Renewable Portfolio Standard complaint process.

ALTERNATIVES STATEMENT
(Gov. Code Section 11346.5(a)(13))

Prior to adopting the revised regulations, the commission must determine that no reasonable alternative it considered, or that has otherwise been identified and brought to its attention, would be: more effective in carrying out the purpose for which the revisions are proposed, as effective and less burdensome to affected private persons than the proposed revisions, or more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

The commission developed the proposed language in conjunction with stakeholder and public input which resulted in the incorporation of alternative or modified language. The proposed language achieves the clarity, functionality and fairness that underline the reason for updating the regulations. The proposed language does not impose any additional obligations or costs on private persons. While the proposed regulatory language covers an existing processing fee, the fee is imposed by statute on facility owners (Public Resources Code section 25806(e)). Proposed section 1708 complements the statute by identifying the commission activities which fall within the reimbursable processing of the petition to amend work. The statute already sets the amount of deposit required: \$5,000; the activity that is billable; actual cost of processing a petition to amend; and the maximum amount charged: \$750,000. The other proposed changes improve internal process, especially how power plant amendments are reviewed and approved or harmonize the general complaint and the Renewable Portfolio Standard complaint process.

Staff is not currently aware of any alternatives that would be as effective as and less burdensome than the proposed modifications to the regulations. Interested persons are invited to present statements or arguments with respect to alternatives to the proposed regulations at the scheduled hearing or during the written comment period.

TITLE 28. DEPARTMENT OF MANAGED HEALTH CARE

DATE: May 25, 2018
ACTION: Notice of Rulemaking Action
 Title 28, California Code of Regulations
SUBJECT: Financial Solvency of Risk Bearing Organizations; Amending sections 1300.75.4, 1300.75.4.1, 1300.75.4.2, 1300.75.4.5, 1300.75.4.7, 1300.75.4.8, and 1300.76 to title 28, California Code of Regulations; Control No. 2017-5216.

PUBLIC PROCEEDINGS

Notice is hereby given that the Director of the Department of Managed Health Care (Department) proposes to adopt the proposed regulations under the Knox-Keene Health Care Service Plan Act of 1975 (Knox-Keene Act) clarifying standards and requirements to ensure risk-bearing organizations (organizations) comply with financial solvency standards as well as eliminating outdated and obsolete language to provide greater clarity to these regulations.

This rulemaking action proposes to amend sections 1300.75.4, 1300.75.4.1, 1300.75.4.2, 1300.75.4.5, 1300.75.4.7, 1300.75.4.8, and 1300.76, in Title 28, California Code of Regulations (the Regulations). Before undertaking this action, the Director of the Department (Director) will conduct written public proceedings, during which time any interested person, or such person's duly authorized representative, may present statements, arguments, or contentions relevant to the action described in this notice.

PUBLIC HEARING

No public hearing is scheduled. Any interested person, or his or her duly authorized representative, may submit a written request for a public hearing pursuant to Government Code section 11346.8(a). The written request for a hearing must be received by the Department's contact person, designated below, no later than 15 days before the close of the written comment period.

WRITTEN COMMENT PERIOD

Any interested person, or his or her authorized representative, may submit written statements, arguments or contentions (hereafter referred to as comments) relating to the proposed regulatory action by the Department. Comments must be received by the Department, Office of Legal Services, **by 5 p.m. on July 9, 2018**, which is hereby designated as the close of the written comment period.

Please address all comments to the Department of Managed Health Care, Office of Legal Services, Attention: Jennifer Willis, Senior Counsel. Comments may be transmitted by regular mail, fax, email or via the Department's website:

AVAILABILITY OF DOCUMENTS

The Department has prepared and has available for public review the Initial Statement of Reasons, text of the proposed regulation and all information upon which the proposed regulation is based (rulemaking file). This information is available by request to the Department of Managed Health Care, Office of Legal Services, 980 9th Street, Sacramento, CA 95814, Attention: Regulations Coordinator.

The Notice of Proposed Rulemaking Action, the proposed text of the regulation, and the Initial Statement of Reasons are also available on the Department’s website at <http://www.dmhc.ca.gov/LawsRegulations.aspx#open>.

You may obtain a copy of the Final Statement of Reasons once it has been prepared by making a written request to the Regulation Coordinator named above.

AVAILABILITY OF MODIFIED TEXT

The full text of any modified regulation, unless the modification is only non-substantial or solely grammatical in nature, will be made available to the public at least 15 days before the date the Department adopts the regulation. A request for a copy of any modified regulation(s) should be addressed to the Regulations Coordinator. The Director will accept comments via the Department’s website, mail, fax, or email on the modified regulation(s) for 15 days after the date on which the modified text is made available. The Director may thereafter adopt, amend or repeal the foregoing proposal substantially as set forth without further notice.

AUTHORITY AND REFERENCE

Pursuant to Health and Safety Code section 1341, subdivision (a), the Department “has charge of the execution of the laws of this state relating in to health care service plans . . . including, but not limited to, those laws directing the department to ensure that health care service plans provide enrollees with access to quality health care services and protect and promote the interests of enrollees.”

Health and Safety Code section 1341.9, vests the Department with all duties, powers, purposes, responsibilities, and jurisdiction as they pertain to health care service plans (health plans) and health plan businesses.

Health and Safety Code section 1344 grants the Director authority to adopt, amend, and rescind such rules, forms, and orders as are necessary to carry out the provisions of the Knox-Keene Act.

Health and Safety Code section 1345, subdivision (f)(1), defines a “health care service plan” as “any person who undertakes to arrange for the provision of health care services to subscribers or enrollees, or to pay for or to reimburse any part of the cost of those services in return for a prepaid or periodic charge paid by or on behalf of subscribers or enrollees.”

Health and Safety Code section 1346 vests in the Director additional powers to administer and enforce the Knox-Keene Act, including but not limited to, the power to study, investigate, research and analyze matters affecting the interests of health plans, subscribers, enrollees and the public, and to promote and establish standards of ethical conduct for the administration of health care service plans.

Health and Safety Code section 1375.4 requires the Director adopt regulations to implement the required provisions for contracts between a health plan and an organization. Pursuant to subdivision (b), these regulations shall include a process for reviewing the financial solvency of organizations, a process for corrective action plans (CAPs) to correct deficiencies, disclosure of enrollment and risk arrangement information from health plans, reports by the health plans to the Director that include information concerning the organizations, and the confidentiality of financial and other records produced, disclosed, or otherwise made available under this section.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Purpose of the Regulation:

The purpose of this rulemaking action is to clarify and interpret the rights and responsibilities of organizations as to their financial solvency. Specifically, the proposed amendments and additions will allow the Department to

consistently implement the provisions of Health and Safety Code section 1375.4, including clarifying the definition of an organization, how these organizations report financial solvency, and the financial solvency standards that an organization shall meet. These changes will allow the Department to ensure that organizations are financially capable of taking on the weight of their risk-based agreements to provide health care services. Without such oversight, delivery and quality of healthcare for California healthcare consumers could be disrupted and the healthcare marketplace negatively impacted through these types of contractual delegations. The proposed amendments build on current regulations to remedy identified inconsistencies and ambiguities that negatively impact health plan enrollees and the healthcare marketplace. The proposed regulatory action will benefit California residents and also protect public health by securing California enrollee access to healthcare by amending regulations that ensure the viability of the healthcare marketplace, which enables enrollee health to be better managed and protected.

Summary of Existing Laws and Regulations:

The Department does not directly regulate organizations, as defined in Health and Safety Code section 1375.4, subdivision (g)(1), and section 1300.75.4, subdivision (b), of the Rules. Rather, the Department’s authority over organizations stems from the Department’s authority to regulate health plan contracts with organizations. The Knox-Keene Act gives the Department authority to obtain financial, enrollment, and other information from organizations that contract with licensed health plans or arrange for the health care services of a health plan’s enrollees; the Department also has authority to require organizations to meet various financial thresholds to help ensure the organizations have the necessary resources to provide health care services to enrollees. The language of Health and Safety Code section 1375.4 of the Knox-Keene Act gives the Department authority to oversee sub-delegated organizations in the same way the Department oversees organizations that contract directly with health plans.

Broad Objectives and Benefits of the Regulation:

Pursuant to Government Code section 11346.5(a)(3)(C), the broad objectives and benefits of this regulation are to clarify and make specific state law relevant to the financial solvency of organizations. The Department is proposing to amend 1300.75.4 to clarify that organizations include those that contract directly with a health plan as well as those that arrange for the health care services of a health plan’s enrollees despite not having a direct contractual relationship with the health plan. The Knox-Keene Act defines an organization as an entity that “contracts directly with a health care service plan or arranges for health care services for

the health care service plan’s enrollees.” This statutory language gives the Department authority to oversee sub-delegated organizations in the same way the Department oversees organizations that contract directly with health plans. However, the current regulations do not clearly address sub-delegated organizations and the reporting requirements of these organizations. The Department is also proposing to amend 1300.75.4 to add definitions for “sponsoring organization” and “sub-delegating organization”. In defining “sponsoring organization” the amendment is implementing section 1375.4, subdivision (b)(1)(B), which allows use of a sponsoring organization. In defining “sub-delegating organization” the regulation implements Health and Safety Code section 1375.4, which applies to both organizations that contract directly with a health plan and those that arrange for the health care services of a health plan’s enrollees through a contract with another organization. By defining these terms, the amendments ensure that all parties clearly understand their obligations and requirements in a sub-delegation arrangement.

The amendment also simplifies the methodology by which organizations calculate health plan receivables by removing obsolete and unnecessary language and implementing an industry standard of 30 calendar days. Additionally, this amendment eliminates obsolete phase-in provisions, which were fully implemented approximately 10 years ago, to provide greater clarity to the required financial reserves of an organization and prevent confusion with outdated language. The intent of this regulation is to clarify this section of the Regulations by removing obsolete provisions and strengthening the reporting requirements of these organizations.

The Department is proposing to amend section 1300.75.4.1 of the Rules to revise an organization’s financial reporting requirements to provide greater clarity to the type of risk arrangements that shall be disclosed by the health plan to the organization, and to incorporate the current payment models used by Medicare for consistency. Additionally, the proposed regulation makes technical changes to update obsolete language and to make clear the role of a sub-delegating organization.

Proposed section 1300.75.4.2 of the Rules removes the quarterly reporting distinction between organizations that serve at least 10,000 covered lives under all risk arrangements and those that serve less than 10,000 covered lives. The proposed section allows for a one-year phase-in period for organizations to comply with the revised cash-to-claims definition set forth in section 1300.75.4. The proposal also incorporates by reference the “DMHC Quarterly Financial Survey Report Form” and the “DMHC Annual Financial Survey Report,” which implement the financial reporting requirements pursuant to Health and Safety Code section

1375.4 and amended section 1300.75.4.2. Although these forms have been used by regulated entities for years, the Department has not completely incorporated them up until this time. The proposed section clarifies how an organization may rely on a sponsoring organization guarantee by making clear that the term of the guarantee can be no longer than one year unless an extension is granted by the Department. The amended regulation provides the Department the means to enforce the financial solvency criteria of organizations while providing organizations flexibility when they need additional funds to demonstrate solvency.

Amended section 1300.75.4.5 clarifies that any financial information a health plan or sub-delegating organization contracts to receive from an organization shall be reviewed as a part of the health plan's and organization's duty to ensure their risk-sharing arrangements are financially viable.

Amended section 1300.75.4.8 streamlines the CAP finalization process by requiring a shorter turnaround by health plans and sub-delegating organizations raising objections and allowing the Department to assist in resolving objections at an earlier stage of the process. This will allow CAPs to be finalized more quickly, moving the struggling organization towards faster compliance. This helps to ensure a stable healthcare marketplace. The proposal also incorporates by reference the "DMHC Correction Action Plan (CAP) Form," which allows organizations to report the financial information required pursuant to section 1300.75.4.8 on a form that will allow the Department to analyze the data effectively and efficiently.

The proposed amendment to section 1300.76 clarifies what "positive tangible net equity" (TNE) is for purposes of calculating the TNE an organization must have to be compliant with the Solvency Regulations, as defined by section 1300.75.4, subdivision (e), of the Rules. The proposed regulation allows for a one-year phase-in period for organizations to comply. The proposed regulation balances the need for organizations to have some level of financial reserves to demonstrate solvency while minimizing disparate impact on smaller organizations that may have more difficulty maintaining the required amount.

The remaining non-substantive amendments are technical changes to update obsolete or incorrect language.

ALTERNATIVES CONSIDERED

Pursuant to Government Code section 11346.5(a)(13), the Department must determine that no

reasonable alternative considered by the Department or that has otherwise been identified or brought to the attention of the Department would be more effective in carrying out the purpose for which the above action is proposed or would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provisions of law.

The Department invites interested persons to present statements or arguments with respect to alternatives to the requirements of the proposed regulations during the written comment period.

EVALUATION OF CONSISTENCY/COMPATIBILITY WITH EXISTING STATE REGULATIONS

The Department evaluated the regulations for any other possible related regulations and has found that these are the only regulations concerning an organization's duties under the Solvency Regulations and the proposed amendments are consistent with other areas of the Solvency Regulations that address more specifically health plan responsibilities. Therefore, these regulations are neither inconsistent nor incompatible with existing state regulations.

FORMS INCORPORATED BY REFERENCE

The "DMHC Quarterly Financial Survey Report Form," as dated May, 2018, "DMHC Annual Financial Survey Report Form, dated May, 2018, and "DMHC Corrective Action Plan (CAP) Form," as dated May, 2018, is incorporated by reference pursuant to title 1, California Code of Regulations, section 20(a)(3), and as cited to in the Rules, sections 1300.84.06 and 1300.84.2, as amended by this rulemaking action.

SUMMARY OF FISCAL IMPACT

- Mandate on local agencies and school districts: None.
- Cost or Savings to any State Agency: None.
- Cost to Local Agencies and School Districts Required to be Reimbursed under Part 7 (commencing with Section 17500) of Division 4 of the Government Code: None.
- Other non-discretionary cost or savings imposed upon local agencies: None.
- Direct or Indirect Costs or Savings in Federal Funding to the State: None.

- Costs to private persons or businesses directly affected: Based on Fiscal Year 2016, the Department’s most recent fully reported and analyzed fiscal year, approximately 27 organizations will be noncompliant with the revised TNE requirement. These organizations will incur an average cost of \$670,211 in order to satisfy the updated TNE requirement, for a total of \$18,095,690 spread across approximately 27 organizations.
- Statewide adverse economic impact directing affecting business and individuals: Although the proposed action will directly affect business statewide, the Department concludes that the adverse economic impact, including the ability of California businesses to compete with businesses in other states, will not be significant.
- Effect on Housing Costs: None.

RESULTS OF THE ECONOMIC
IMPACT ANALYSIS

(Government Code section 11346.3, subdivision (b))

Creation or Elimination of Jobs Within the State of California:

The amended regulation is designed to interpret and clarify state requirements regarding the financial solvency of organizations. The regulation builds on current interpretations and clarifications of the rights and responsibilities of organizations in reporting and maintaining financial solvency that have proven effective and consistent. At the same time, the regulation replaces current terminology and interpretations that have proven to be problematic and unwieldy for the impacted parties. The one amendment with a substantive economic impact is the increase in financial reserves an organization must maintain under section 1300.76. The proposed requirements for an organization’s TNE was reached by examining the requirements placed on a health plan and by examining how such a proposal would impact the healthcare market. The proposed level balances the need for organizations to have some level of financial reserves to demonstrate solvency while minimizing disparate impact on smaller organizations that may have more difficulty maintaining the required amount. The old TNE requirement is also outdated and does not accurately reflect the current financial reserves that are necessary to demonstrate fiscal solvency. The increase is not expected to be burdensome on affected organizations because they have a year phase-in to achieve total compliance, and the updated TNE requirement is necessary in the current healthcare marketplace. In light of the technical nature of most of these amendments, and the reasonable and appropriate nominal eco-

nomical impact of the increased deposit requirement, no jobs in California will be created or eliminated. The amendments are also necessary to protect enrollees’ interests in the event of an insolvent organization.

Creation of New Businesses or Elimination of Existing Businesses Within the State of California:

The amended regulation is designed to interpret and clarify state requirements regarding the financial solvency of organizations. The regulation builds on current interpretations and clarifications of the rights and responsibilities of organizations in reporting and maintaining financial solvency that have proven effective and consistent. At the same time, the regulation replaces current terminology and interpretations that have proven to be problematic and unwieldy for the impacted parties. The amendments are also necessary to protect enrollees’ interests in the event of an insolvent organization.

Expansion of Businesses Currently Doing Business Within the State of California:

The amended regulation is designed to interpret and clarify state requirements regarding the financial solvency of organizations. The regulation builds on current interpretations and clarifications of the rights and responsibilities of organizations in reporting and maintaining financial solvency that have proven effective and consistent. At the same time, the regulation replaces current terminology and interpretations that have proven to be problematic and unwieldy for the impacted parties. The one amendment with a substantive economic impact is the increase in financial reserves an organization must maintain under section 1300.76. The

The amendments are also necessary to protect enrollees' interests in the event of an insolvent organization.

Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The amended regulation is designed to interpret and clarify state requirements regarding the financial solvency of organizations. The regulation builds on current interpretations and clarifications of the rights and responsibilities of organizations in reporting and maintaining financial solvency that have proven effective and consistent. At the same time, the regulation replaces current terminology and interpretations that have proven to be problematic and unwieldy for the impacted parties. impact of the increased deposit requirement, no new businesses in California will be created or existing businesses eliminated. The amendments are also necessary to protect enrollees' interests in the event of an insolvent organization.

DETERMINATIONS

The Department has made the following initial determinations:

The Department has determined the regulation will not impose a mandate on local agencies or school districts, nor are there any costs requiring reimbursement by Part 7 (commencing with Section 17500) of Division 4 of the Government Code.

The Department has determined the regulation will have no significant effect on housing costs.

The Department has determined the regulation does not impact small businesses. Relying on fiscal year 2016, the most recent fully reported and analyzed fiscal year, 179 organizations currently report to the Department, of which 17 may be classified as small businesses pursuant to Government Code section 11342.610. None of the 17 small business organizations will be impacted by the proposed amendments to the regulations because they are already compliant with the revised TNE requirements contained in the proposed regulation.

Based on Fiscal Year 2016, the Department's most recent fully reported and analyzed fiscal year, approximately 27 organizations will be noncompliant with the proposed revised TNE requirement in the amended regulations. These organizations will incur an average cost of \$670,211 in order to satisfy the updated TNE requirement, for a total of \$18,095,690 spread across approximately 27 organizations. However, one organization significantly skews this average TNE deficiency rate because it contributes approximately \$3.5 million to the deficiency. The average TNE deficiency without this outlier organization would be \$559,319. Additionally, of the 27 organizations, 4 are currently noncompliant with the existing "positive" TNE rate.

As stated above, there will be no impact to the small business organizations by the proposed amendments to the regulations because they are already compliant with the revised TNE requirements contained in the proposed regulation.

The Department examined the impact of the TNE requirements on the organizations and balanced the need for the updated TNE requirements and the hardship organizations may initially face in coming to compliance. Accordingly, the Department proposes that organizations have a phase-in period of one year for compliance and during that year, the organizations must comply with the existing TNE requirements. The Department

believes this approach balances the needs of all parties, while protecting the enrollees.

The Department has determined that this regulation will have no cost or savings in federal funding to the state.

BUSINESS REPORT

These amendments to the existing regulation update the information contained within the regulation to clarify and update the requirements of organizations by clarifying, definitions, financial solvency reporting requirements, and financial solvency standards. The amendments to this regulation are necessary for the health, safety or welfare of the people of the state.

GENERAL PUBLIC INTEREST

DEPARTMENT OF FISH AND WILDLIFE

FISH AND GAME CODE SECTION 1653
CONSISTENCY DETERMINATION
REQUEST FOR
Rodden Road Restoration Project
(Tracking Number: 1653-2018-016-001-R4)
Stanislaus County

California Department of Fish and Wildlife (CDFW) received a Request to Approve on May 14, 2018, that the U.S. Fish and Wildlife Service proposes to carry out a habitat restoration or enhancement project pursuant to Fish and Game Code section 1653. The proposed project involves removing fine sediment to reestablish side channels, adding clean spawning gravel to enhance channel riffles, and stabilizing disturbed areas with native vegetation. The proposed project will be carried out on the Stanislaus River, located at 8282, 8278 and 8270 Rodden Road, Oakdale, Stanislaus County, California.

The Central Valley Regional Water Quality Control Board (Regional Water Board) received a Notice of Intent (NOI) to comply with the terms of, and obtain coverage under, the General 401 Water Quality Certification Order for Small Habitat Restoration Projects (General 401 Order) for the Rodden Road Restoration Project. The Regional Water Board determined that the Project, as described in the NOI, was categorically exempt from California Environmental Quality Act (CEQA) review (section 15333 — Small Habitat Restoration Projects) and met the eligibility requirements for coverage under the General 401 Order. The

Regional Water Board issued a Notice of Applicability (WDID No. 5B50CR00085) for coverage under the General 401 Order on March 7, 2018.

The U.S. Fish and Wildlife Service is requesting a determination that the project and associated documents are complete pursuant to Fish and Game Code section 1653 subdivision (d). If CDFW determines the project is complete, the District will not be required to obtain an incidental take permit under Fish and Game Code section 2081 subdivision (b) or a Lake or Streambed Alteration Agreement under Fish and Game Code section 1605 for the proposed project.

In accordance with Fish and Game Code section 1653 subdivision (e), if CDFW determines during the review, based on substantial evidence, that the request is not complete, the U.S. Fish and Wildlife Service will have the opportunity to submit under Fish and Game Code section 1652.

DEPARTMENT OF FISH AND WILDLIFE

PROPOSED RESEARCH ON FULLY PROTECTED SPECIES
Research on the Morro Bay Kangaroo Rat

The Department of Fish and Wildlife (Department) received a proposal from William J. Vanherweg, an independent biological consultant, requesting authorization to take the Morro Bay kangaroo rat (*Dipodomys heermanni morrensis*) (kangaroo rat), a Fully Protected mammal, for scientific research purposes consistent with conservation and recovery of the species. The kangaroo rat is listed as Endangered under the California Endangered Species Act and Endangered under the federal Endangered Species Act.

Mr. Vanherweg is planning to conduct surveys throughout the historic range of the kangaroo rat in California, specifically in the vicinity of Los Osos, San Luis Obispo County, California, in accordance with a standard protocol approved by the Department and the U.S. Fish and Wildlife Service (Service). The proposed research activities include capturing or attempting to capture the kangaroo rat using live traps to determine the distribution and status of local populations. If any kangaroo rats are found dead, they will be salvaged (including any parts thereof) and donated to a scientific institution open to the public, as designated by the Department and the Service. No adverse effects on individual kangaroo rats or kangaroo rat populations are expected.

The Department intends to issue, under specified conditions, a Memorandum of Understanding (MOU) that would authorize qualified professional wildlife researchers, with Mr. Vanherweg as the Principal Investi-

gator, to carry out the proposed activities. The applicant is also required to have a valid federal recovery permit for the kangaroo rat and a Scientific Collecting Permit (SCP) to incidentally take other mammal species in California.

Pursuant to California Fish and Game Code (FGC) Section 4700(a)(1), the Department may authorize take of Fully Protected mammal species after a 30-day notice period has been provided to affected and interested parties through publication of this notice. If the Department determines that the proposed research is consistent with the requirements of FGC Section 4700 for take of Fully Protected mammals, it would issue the authorization on or after June 25, 2018, for an initial and renewable term of up to, but not to exceed five years. REVIEW AND COMMENT
PUBLIC COMMENT PERIOD: MAY 25TH,
2018-JUNE 25TH, 2018
RICHARDS CLEANERS SITE SETTLEMENT
538 WEST 5TH STREET,
SAN PEDRO, CA 90731**

WHAT IS BEING PROPOSED? The Department of Toxic Substances Control (DTSC), invites your review and comment on a proposed Consent Decree concerning the environmental cleanup of the Richards Cleaners site (Site), a former dry cleaner site, located at 538 West 5th Street, in San Pedro, California 90731. In October 2017, the United States District Court for the Central District of California ordered World Cleaners, Inc., the former operator of the site, and 538 West 5th Street, Inc., the current owner of the Site, to continue remediation (cleanup) activities under DTSC oversight. In the proposed Consent Decree, World Cleaners, Inc. and 538 West 5th Street, Inc., (the settling defendants) have agreed to pay DTSC \$200,000. The Settling Defendants will pay \$100,000 within fifteen days of the effective date of the Consent Decree and have agreed that DTSC may place a lien on the Site guaranteeing payment of the other \$100,000. The Settling Defendants must also conduct the work required by the District Court's prior order.

Following the comment period, DTSC will report to the District Court any comments that DTSC received

regarding the Consent Decree and ask the Court to approve the Consent Decree. If approved by the District Court, the Consent Decree will resolve the Settling Defendants' responsibility for costs DTSC has incurred up to December 31, 2017 at the Site, and certain costs DTSC incurred prior to the Effective Date of the Consent Decree, subject to limitations in the Consent Decree. The Consent Decree will provide the settling defendants with contribution protection pursuant to section 113(f)(2) of the Comprehensive Environmental Response, Compensation, and Recovery Act (CERCLA), 42 U.S.C. § 9613(f)(2).

The Site operated as a dry-cleaning business since at least 1918. The current owner continued to operate the dry-cleaning business until 2007, when it converted to a dry-cleaning drop off facility only. As such, no dry-cleaning chemicals have been used on the Site since 2007. It is believed historic dry-cleaning operations resulted in the release of dry-cleaning chlorinated solvents into soil and groundwater beneath the Site at levels requiring environmental remediation to protect public health and the environment. DTSC is the lead regulatory agency for Site investigation activities and cleanup oversight.

HOW YOU CAN PARTICIPATE: A 30-day public comment period on the proposed Consent Decree begins May 25th, 2018 and ends June 25th, 2018. All public comments must be post-marked or e-mailed by June 25th, 2018, and sent to: Joseph Cully, DTSC Project Manager, 5796 Corporate Avenue, Cypress, CA 90630, e-mail: Joseph.Cully@dtsc.ca.gov.

FOR MORE INFORMATION: The draft Consent Decree and other project documents are available for public review electronically at www.EnviroStor.dtsc.ca.gov, or at the Information Repository listed below:

PROPOSITION 65

**OFFICE OF ENVIRONMENTAL
HEALTH HAZARD ASSESSMENT**

**SAFE DRINKING WATER AND TOXIC
ENFORCEMENT ACT OF 1986
(PROPOSITION 65)
CHEMICAL LISTED EFFECTIVE
MAY 25, 2018**

AS KNOWN TO THE STATE OF CALIFORNIA
TO CAUSE CANCER:
TRIM® VX

Effective **May 25, 2018**, the Office of Environmental Health Hazard Assessment (OEHHA) is adding TRIM® VX to the list of chemicals known to the State of California to cause cancer for purposes of Proposition 65¹.

The listing of TRIM® VX is based on formal identification by the National Toxicology Program (NTP), an authoritative body², that the chemical causes cancer. The criteria used by OEHHA for the listing of chemicals under the “authoritative bodies” mechanism can be found in Title 27, Cal. Code of Regs., section 25306.

The documentation supporting OEHHA’s determination that the criteria for administrative listing have been satisfied for TRIM® VX is included in the “Notice of Intent to List: TRIM® VX” posted on OEHHA’s website and published in the January 26, 2018 issue of the California Regulatory Notice Register (Register 2018, No. 4–Z). The publication of the notice initiated a public comment period that closed on February 26, 2018.

¹ The Safe Drinking Water and Toxic Enforcement Act of 1986, Health and Safety Code section 25249.5 et seq.

² See Health and Safety Code section 25249.8(b) and Title 27, Cal. Code of Regs., section 25306.

OEHHA received two public comments on TRIM® VX. The comments and OEHHA’s responses are posted with the Notice of Intent to List.

A complete, updated chemical list is published in this issue of the *California Regulatory Notice Register* and is available on the OEHHA website at <http://oehha.ca.gov/proposition-65/proposition-65-list>.

In summary, TRIM® VX is listed under Proposition 65 as known to the state to cause cancer, as follows:

Chemical	CAS No.	Endpoint	Listing Mechanism*
TRIM® VX	---	Cancer	AB (NTP)

*Listing mechanism: AB – “authoritative bodies” mechanism (Title 27, Cal. Code of Regs. section 25306).

**CHEMICALS KNOWN TO THE STATE
TO CAUSE CANCER OR
REPRODUCTIVE TOXICITY**

May 25, 2018

The Safe Drinking Water and Toxic Enforcement Act of 1986 requires that the Governor revise and republish at least once per year the list of chemicals known to the State to cause cancer or reproductive toxicity. The identification number indicated in the following list is the Chemical Abstracts Service (CAS) Registry Number. No CAS number is given when several substances are presented as a single listing. The date refers to the initial appearance of the chemical on the list. For easy reference, chemicals which are shown underlined are newly added. Chemicals which are shown with a strikethrough were placed on the list with the date noted, and have subsequently been removed.

SUSPENSION OF ACTION REGARDING
UNDERGROUND REGULATIONS**

(Pursuant to Title 1, section 280, of the
California Code of Regulations)

DEPARTMENT OF STATE HOSPITALS

On March 5, 2018, the Office of Administrative Law (OAL) received a petition challenging a memorandum issued by the Department of State Hospitals as an alleged underground regulation. The challenged rule is the memorandum dated June 22, 2017, with the subject

“Upcoming Restrictions on Juice, Packages, and Stamps” and was directed to All DSH-Coalinga Patients.

On May 4, 2018, the Department of State Hospitals certified to OAL that the challenged memorandum had been rescinded; therefore, pursuant to Title 1, section 280 of the California Code of Regulations, OAL must suspend all action on this petition.

**SUMMARY OF REGULATORY
ACTIONS**

**REGULATIONS FILED WITH
SECRETARY OF STATE**

This Summary of Regulatory Actions lists regulations filed with the Secretary of State on the dates indicated. Copies of the regulations may be obtained by contacting the agency or from the Secretary of State, Archives, 1020 O Street, Sacramento, CA 95814, (916)
