RULEMAKING PETITION DECISION

BUREAU OF AUTOMOTIVE REPAIR

*Notice of Decision on Petition from Edward Turner Concerning California Code of Regulations,
Title 16, Section 3340.15* 1957

SUMMARY OF REGULATORY ACTIONS

Regulations filed with the Secretary of State 1958
Sections Filed, May 23, 2018 to October 24, 2018 1961

The *California Regulatory Notice Register* is an official state publication of the Office of Administrative Law containing notices of proposed regulatory actions by state regulatory agencies to adopt, amend or repeal regulations contained in the California Code of Regulations. The effective period of a notice of proposed regulatory action by a state agency in the *California Regulatory Notice Register* shall not exceed one year [Government Code § 11346.4(b)]. It is suggested, therefore, that issues of the *California Regulatory Notice Register* be retained for a minimum of 18 months.

CALIFORNIA REGULATORY NOTICE REGISTER is published weekly by the Office of Administrative Law, 300 Capitol Mall, Suite 1250, Sacramento, CA 95814-4339. The Register is printed by Barclays, a subsidiary of West, a Thomson Reuters Business, and is offered by subscription for \$205.00 (annual price). To order or make changes to current subscriptions, please call (800) 328-4880. The Register can also be accessed at <http://www.oal.ca.gov>.

PROPOSED ACTION ON REGULATIONS

Information contained in this document is published as received from agencies and is not edited by Thomson Reuters.

TITLE 2. FAIR POLITICAL PRACTICES COMMISSION

NOTICE IS HEREBY GIVEN that the Fair Political Practices Commission, pursuant to the authority vested in it by Sections 82011, 87303, and 87304 of the Government Code to review proposed conflict-of-interest codes, will review the proposed/amended conflict-of-interest codes of the following:

CONFLICT-OF-INTEREST CODES

AMENDMENT

MULTI-COUNTY: Sierra Joint Community College District
 Las Virgenes Unified School District
 Association of California Water Agencies Joint Powers Insurance Authority
 Vector Control Joint Powers Agency
 California Statewide Communities Development Authority

A written comment period has been established commencing on November 2, 2018, and closing on December 17, 2018. Written comments should be directed to the Fair Political Practices Commission, Attention Brianne Kilbane, 1102 Q Street, Suite 3000, Sacramento, California 95811.

At the end of the 45-day comment period, the proposed conflict-of-interest code(s) will be submitted to the Commission's Executive Director for her review, unless any interested person or his or her duly authorized representative requests, no later than 15 days prior to the close of the written comment period, a public hearing before the full Commission. If a public hearing is requested, the proposed code(s) will be submitted to the Commission for review.

The Executive Director of the Commission will review the above-referenced conflict-of-interest code(s), proposed pursuant to Government Code Section 87300, which designate, pursuant to Government Code Section 87302, employees who must disclose certain investments, interests in real property and income.

The Executive Director of the Commission, upon her or its own motion or at the request of any interested person, will approve, or revise and approve, or return the proposed code(s) to the agency for revision and re-submission within 60 days without further notice.

Any interested person may present statements, arguments or comments, in writing to the Executive Director of the Commission, relative to review of the proposed conflict-of-interest code(s). Any written comments must be received no later than December 17, 2018. If a public hearing is to be held, oral comments may be presented to the Commission at the hearing.

COST TO LOCAL AGENCIES

There shall be no reimbursement for any new or increased costs to local government which may result from compliance with these codes because these are not new programs mandated on local agencies by the codes since the requirements described herein were mandated by the Political Reform Act of 1974. Therefore, they are not "costs mandated by the state" as defined in Government Code Section 17514.

EFFECT ON HOUSING COSTS AND BUSINESSES

Compliance with the codes has no potential effect on housing costs or on private persons, businesses or small businesses.

AUTHORITY

Government Code Sections 82011, 87303 and 87304 provide that the Fair Political Practices Commission as the code-reviewing body for the above conflict-of-interest codes shall approve codes as submitted, revise the proposed code and approve it as revised, or return the proposed code for revision and re-submission.

REFERENCE

Government Code Sections 87300 and 87306 provide that agencies shall adopt and promulgate conflict-of-interest codes pursuant to the Political Reform Act and amend their codes when change is necessitated by changed circumstances.

CONTACT

Any inquiries concerning the proposed conflict-of-interest code(s) should be made to Brianne Kilbane, Fair Political Practices Commission, 1102 Q Street, Suite 3000, Sacramento, California 95811, telephone (916) 322-5660.

AVAILABILITY OF PROPOSED
CONFLICT-OF-INTEREST CODES

Copies of the proposed conflict-of-interest codes may be obtained from the Commission offices or the respective agency. Requests for copies from the Commission should be made to Brianne Kilbane, Fair Political Practices Commission, 1102 Q Street, Suite 3000, Sacramento, California 95811, telephone (916) 322-5660.

**TITLE 4. DEPARTMENT OF FOOD
AND AGRICULTURE**

**Division 9. Division of Measurement Standards,
Department of Food and Agriculture
Chapter 1. Tolerances and Specifications for
Commercial Weighing and Measuring Devices
Article 1. National Uniformity, Exceptions
and Additions**

The California Department of Food and Agriculture (Department) proposes to amend California Code of Regulations (CCR), Title 4. Business Regulations, Division 9, Chapter 1. Tolerances and Specifications for Commercial Weighing and Measuring Devices, Article 1. National Uniformity, Exceptions and Additions, §§ 4001. Exceptions and 4002. Additional Requirements relating to Section 3.40. Electric Vehicle Fueling Systems — Tentative Code of the National Institute of Standards and Technology (NIST) *Handbook 44*, “Specifications, Tolerances, and other Technical Requirements for Weighing and Measuring Devices.”

PUBLIC HEARING

A public hearing for this rulemaking will be held on December 17, 2018, at 10:00 a.m. in the Department’s Auditorium at 1220 N Street, Sacramento, CA 95814. The hearing will be adjourned earlier if all persons wishing to make a statement have been heard.

The public hearing will be conducted in accordance with Government Code § 11346.8, which allows any

interested person, or his or her duly authorized representative, to provide oral or written statements, arguments, or contentions. The Department may impose reasonable limitations on oral presentations. It is requested, but not required, that persons making oral comments at the hearing submit a written copy of their testimony.

WRITTEN COMMENT PERIOD

Any interested person, or his or her authorized representative, may submit written comments relevant to the proposed regulatory action to the Department by mail, fax, or email addressed to the primary contact person listed below. Please include ‘EVSE Rulemaking’ in the subject line of any letter, fax, or email regarding this rulemaking. The written comment period begins on **November 2, 2018**, and closes at 5:00 p.m. on **December 18, 2018**. The Department will only consider comments received at the office of the Division of Measurement Standards by that time.

Please include ‘EVSE Rulemaking’ in the subject line of emails regarding this rulemaking.

AUTHORITY/REFERENCE

The Legislature has charged the Department with the responsibility of supervising weights and measures activities within California (California Business and Professions Code (BPC), Division 5 § 12100). The Secretary of the Department is granted the authority to adopt such regulations as is reasonably necessary to carry out the provisions of Division 5 of the BPC (BPC § 12027). Authority and reference for these regulations is provided in BPC § 12107, which requires the Secretary to adopt specifications and tolerances for weighing and measuring devices used commercially in California.

INFORMATIVE DIGEST/POLICY STATEMENT
OVERVIEW

BPC Division 5, Chapter 2, § 12107 requires the Department to establish specifications, tolerances and other technical requirements for all weighing and measuring devices used for commercial purposes in California. BPC § 12107 further requires the Department to adopt, by reference, the latest standards as recommended by the National Conference on Weights and Measures (NCWM) and published in the National Institute of Standards and Technology (NIST) *Handbook 44*, "Specifications, Tolerances, and other Technical Requirements for Weighing and Measuring Devices." The Department is authorized by BPC § 12107 to modify, amend, and reject the requirements in NIST *Handbook 44* as necessary for their application in California.

In 2015, the NCWM adopted Section 3.40. Electric Vehicle Fueling Systems — Tentative Code which was first published in the 2016 edition of NIST *Handbook 44*. The Department has determined that amendments to CCR, Title 4. Business Regulations, Division 9, Chapter 1., Article 1., §§ 4001 and 4002 are necessary for the following reasons:

- 1) A tentative code has only trial or experimental status and is not enforceable. Removal of these qualifying words will make clear that this regulation is the basis of enforcement for electric vehicle fueling systems used for commercial purposes, a.k.a., electric charging stations, electric vehicle supply equipment (EVSE).
- 2) Amending the regulations would clarify and make specific some technical requirements for commercial EVSE, including the recognition of California type evaluation and temperature ranges for system components, and align the definition of electricity as motor vehicle fuel with BPC § 13400(b)(4).

The purpose and specific necessity of each of these amendments is discussed in the Initial Statement of Reasons for this rulemaking.

Anticipated Benefits of the Proposed Regulation

The proposed regulation meets the Department's statutory mandate to adopt by reference, the requirements in NIST *Handbook 44*, Section 3.40., and make necessary modifications to address California's specific needs. California has, by far, more electric vehicles and public-access EVSE than any other state in the nation, and the growing infrastructure needs uniform, enforceable standards to promote transparency and equity, and provide consumer and business protection. Consumers will feel confident with making purchases of electricity as motor vehicle fuel while business are able to compete in a fair and equitable marketplace.

Other benefits of the proposed regulation are discussed below in the *Results of Economic Impact Assessment/Analysis* section of this document and further discussed in detail in the Initial Statement of Reasons document.

Consistency and Compatibility with Existing State Regulations

The Department has initially determined this proposal is consistent and compatible with existing California regulations. The Department is the only state agency with the authority to regulate electricity commercially sold and delivered by EVSE as motor vehicle fuel. After conducting a review for any California regulations that would relate to or affect this proposed regulation, the Department has concluded that these are the only regulations that concern the specifications, tolerances, and other technical requirements for the delivery of electricity as motor vehicle fuel dispensed by EVSE. Therefore, no other California regulations are inconsistent or incompatible with the proposed regulation.

DISCLOSURES REGARDING THE
PROPOSED ACTION

The Department makes the following initial determinations:

- Mandate on local agencies and school districts: None.
- Fiscal impact on public agencies including costs/savings to state agencies or costs/savings in federal funding to the state: None.
- Nondiscretionary costs/savings to local agencies: None.
- Cost to any local agency or school district for which Government Code §§ 17500 et seq. require reimbursement: None.
- Other nondiscretionary cost or savings imposed on local agencies: None.
- Significant effect on housing costs: None.

Although the proposed action may affect individual California small businesses that manufacture, own, or operate EVSE, the Department concludes the proposed regulation will not have a significant statewide adverse economic impact directly affecting California businesses, including the ability of California businesses to compete with businesses in other states.

COST IMPACTS ON REPRESENTATIVE PRIVATE PERSON OR BUSINESS, INCLUDING SMALL BUSINESSES

The Department is not aware of any cost impacts that a representative private person would necessarily incur in the reasonable compliance with the proposed regulation. The proposed regulation protects the interests of private persons who use commercial EVSE to charge their battery electric or plug-in hybrid vehicles by enabling the Department to oversee, regulate and enforce requirements in NIST *Handbook 44*, Section 3.40.

The Department is aware of cost impacts that representative small and large businesses would necessarily incur in the reasonable compliance with the proposed regulation. The proposed regulation economically affects all California businesses, including small businesses, that manufacture, own, or operate commercial EVSE. Manufacturers of commercial-use EVSE will incur a one-time cost to the Department when they submit their new models for type evaluation if they haven't already obtained a Certificate of Conformance from the National Type Evaluation Program. Small and large EVSE manufacturing businesses, owners, and operators of commercial EVSE may need to invest in retrofitting, upgrading, or replacing currently manufactured models of noncompliant commercial EVSE to comply with the proposed regulation. Owners or operators of commercial EVSE will incur an annual device registration fee for testing and sealing services rendered by local county weights and measures departments. The Department estimates the proposed regulation may incur direct and indirect costs of \$9.94 million for the first three fiscal years to all businesses that manufacture, own, or operate commercial EVSE in California. Thereafter, all businesses that manufacture, own, or operate commercial EVSE in California will incur an indirect cost of \$1.44 million for annual device registration services provided by local county weights and measures departments. Refer to the *Economic Impact Assessment/Analysis* section of the Initial Statement of Reasons for more detail.

RESULTS OF ECONOMIC IMPACT ASSESSMENT/ANALYSIS

The Department initially concludes that the proposed regulation: (1) is unlikely to eliminate jobs in California; (2) is unlikely to create new jobs in California; (3) is unlikely to eliminate existing businesses in California; (4) is unlikely to create new businesses in California; and (5) is unlikely to affect the expansion of businesses in California.

The Department believes there will be an economic impact to EVSE manufacturers and charging station owners and operators as a result of this rulemaking.

The proposed regulation will not have a direct economic impact on companies that currently manufacture commercial EVSE compliant with the requirements of NIST *Handbook 44*, Section 3.40. Manufacturers of noncompliant EVSE that wish to produce and sell their products in California after the regulation becomes effective on January 1, 2020, will have to modify or upgrade their EVSE to meet the new standards. All manufacturers will be able to continue marketing noncompliant EVSE for non-commercial use or out-of-state sales. The Department believes this will partially mitigate the economic impact on manufacturers of noncompliant EVSE. The delayed effective date of January 1, 2020, of the proposed regulation will allow adequate time for manufacturers to redirect their noncompliant EVSE inventory to other states, further reducing any adverse economic impact.

Owners and operators of existing noncompliant commercial EVSE will be required to modify, retrofit, or replace those devices. This will include small businesses that own EVSE. The Department cannot determine how many businesses will choose to modify existing commercial EVSE and how many will purchase and install new, compliant devices. It is also possible that some EVSE owners may choose to offer electric vehicle charging at no cost as a service and convenience to their customers, in which case these businesses will not be subject to the proposed regulation.

The Department believes the adoption of EVSE complying with the specifications and requirements of NIST *Handbook 44*, Section 3.40, will have a net positive economic impact on drivers of battery and plug-in hybrid electric vehicles. California law SB 454 (Corbett, Statutes of 2013, Chapter 454) requires that all public-access, commercial EVSE be available to all drivers whose vehicles have compatible plugs and accept payment by credit card or mobile technology, or both. SB 454 prohibits any requirement for a subscription or membership in any group. Because these requirements lead to increased competition in the market-

place, the Department does not believe the cost of recharging a vehicle will rise significantly because of the proposed regulation. Standardization of specifications and requirements will promote increased consumer confidence. The Department believes this in turn will lead to more consumers purchasing electric vehicles and so increase demand for retail charging.

Anticipated Benefits of the Proposed Regulation

The proposed regulation supports the Governor’s Zero Emissions Vehicle (ZEV) initiatives. It will facilitate the development of an adequate EVSE infrastructure, thus helping grow the ZEV market; two paramount factors positively influencing California’s long-term transportation strategy. Electric vehicles do not emit greenhouse gases, and cleaner air will benefit all Californians, especially those with asthma or other breathing disorders. This proposed regulation will help improve air quality and reduce the medical risks to Californians associated with pollution caused by high-carbon emitting vehicles, creating a positive impact to public health and the environment.

Other benefits of the proposed regulation are discussed above in the *Informative Digest/Policy Statement Overview* section of this document and further discussed in detail in the Initial Statement of Reasons document. Also, a more detailed discussion of the economic impact of the proposed regulation can be found in the Initial Statement of Reasons for this rulemaking.

CONSIDERATION OF ALTERNATIVES

Government Code § 11346.5(a)(13) requires the Department to determine that no reasonable alternative it considered or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

The Department invites interested persons to present statements or arguments with respect to alternatives to the proposed regulation at the scheduled hearing or during the written comment period.

AVAILABILITY OF INITIAL STATEMENT OF REASONS, TEXT OF PROPOSED REGULATIONS, AND RULEMAKING FILE

The Department will have the entire rulemaking file available for inspection and copying throughout the rulemaking process at the above office address. As of

the date this notice is published in the Notice Register, the rulemaking file consists of this notice, the proposed text of the regulation, the Initial Statement of Reasons, and all the information upon which this proposal is based.

AVAILABILITY OF CHANGED OR MODIFIED TEXT

After receiving and considering all timely and relevant comments and holding the public hearing, the Department may adopt the proposed regulation substantially as described in this notice. If the Department makes modifications which are sufficiently related to the originally proposed text, it will make the modified text (with changes clearly indicated) available to the public for at least 15 days before the Department adopts the revised regulation. Requests for copies of any modified regulation can be made by emailing dms@cdfa.ca.gov or calling (916) 229-3000. Please include ‘EVSE Rulemaking’ in the subject line of emails regarding this rulemaking. The Department will accept written comments on the modified regulation for 15 days after the date it is made available.

AVAILABILITY OF THE FINAL STATEMENT OF REASONS

Upon its completion, a copy of the Final Statement of Reasons may be obtained by contacting the Department by email at dms@cdfa.ca.gov or calling (916) 229-3000.

AVAILABILITY OF DOCUMENTS ON THE INTERNET

Electronic copies of the Notice of Proposed Rulemaking, the Initial Statement of Reasons, and the proposed text of the regulation in underline and strikethrough will be posted at www.cdfa.ca.gov/dms/regulations.html by the Division of Measurement Standards.

TITLE 22/MPP. DEPARTMENT OF SOCIAL SERVICES

ORD #0518-05

ITEM#1 Tribal Customary Adoption

California Department of Social Services (CDSS) hereby gives notice of the proposed regulatory action(s) described below. Any person interested may present statements or arguments orally or in writing relevant to

the proposed regulations at a public hearing to be held December 19, 2018, as follows:

Office Building #8
744 P St. Room 103
Sacramento, California

The public hearing will convene at 10:00 a.m. and will remain open only as long as attendees are presenting testimony. The purpose of the hearing is to receive public testimony, not to engage in debate or discussion. CDSS will adjourn the hearing immediately following the completion of testimony presentations. The above-referenced facility is accessible to persons with disabilities. If you need a language interpreter at the hearing (including sign language), please notify CDSS at least two weeks prior to the hearing.

Statements or arguments relating to the proposals may also be submitted in writing, e-mail, or by facsimile to the address/number listed below. All comments must be received by 5:00 p.m. on December 19, 2018.

Following the public hearing, CDSS may thereafter adopt the proposals substantially as described below or may modify the proposals if the modifications are sufficiently related to the original text. Except for non-substantive, technical, or grammatical changes, the full text of any modified proposal will be available for 15 days prior to its adoption to all persons who testify or submit written comments during the public comment period and all persons who request notification. Please address requests for regulations as modified to the agency representative identified below.

Copies of the express terms of the proposed regulations and the Initial Statement of Reasons are available from the office listed below. This notice, the Initial Statement of Reasons, and the text of the proposed regulations are available on the internet at <http://www.cdss.ca.gov/inforesources/Letters-Regulations/Legislation-and-Regulations/CDSS-Regulation-Changes-In-Process-and-Completed-Regulations/Public-Hearing-Information>. Additionally, all the information which CDSS considered as the basis for these proposed regulations (i.e., rulemaking file) is available for public reading/perusal at the address listed below. Following the public hearing, copies of the Final Statement of Reasons will also be available from the office below:

Office of Regulations Development
California Department of Social Services
744 P Street, MS 8-4-192
Sacramento, California 95814
TELEPHONE: (916) 657-2586
FACSIMILE: (916) 654-3286
E-MAIL: ord@dss.ca.gov

CHAPTERS

Title 22, Division 2, sections 35410 through 35424

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Current regulations provide guidance to placement workers regarding conventional adoptions, but do not include the Tribal Customary Adoption (TCA) process enacted by Assembly Bill (AB) 1325, Chapter 287, Statutes of 2009. CDSS implemented this legislation on October 27, 2010 via All County Letter (ACL) 10-47. The proposed regulations will bring Title 22, Division 2 in compliance with state statute relating to TCA. These regulations benefit dependent Indian children when finding a permanent placement plan. It will offer them permanence through customary tribal adoption practices without terminating parental rights. Termination of parental rights conflicts with many tribal teachings and cultural values and severs tribal connection. It is in the interest of Indian children to have their tribal membership and connection to the tribal community protected. In addition, dependent Indian children, through tribal customary adoption, will be eligible for benefits from the Adoption Assistance Program.

After conducting an evaluation for any regulations related to this area, CDSS has found that these are the only regulations concerning Tribal Customary Adoption. Therefore, the proposed regulations are consistent and compatible with existing adoption regulations.

COST ESTIMATE

1. Costs or Savings to State Agencies: None.
2. Costs to Local Agencies or School Districts Which Must Be Reimbursed in Accordance With Government Code Sections 17500-17630: None.
3. Nondiscretionary Costs or Savings to Local Agencies: None.
4. Federal Funding to State Agencies: None.

LOCAL MANDATE STATEMENT

These regulations do impose a mandate upon local agencies, but not on school districts. There are no "state-mandated local costs" in these regulations which require state reimbursement under Section 17500 et seq. of the Government Code (GC) because any costs associated with the implementation of these regulations are costs mandated by the federal government within the meaning of GC section 17513.

STATEMENT OF SIGNIFICANT ADVERSE ECONOMIC IMPACT ON BUSINESS

CDSS has made an initial determination that the proposed action will not have a significant, statewide ad-

verse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states. This determination was made based on the fact that these regulations will only impact child placement agencies.

STATEMENT OF POTENTIAL COST IMPACT ON PRIVATE PERSONS OR BUSINESSES

CDSS is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

SMALL BUSINESS IMPACT STATEMENT

CDSS has determined that there is no impact on small businesses as a result of filing these regulations because these regulations are only applicable to state and county agencies.

STATEMENT OF RESULTS OF ECONOMIC IMPACT ASSESSMENT

The adoption of the proposed amendments will neither create nor eliminate jobs in the State of California nor result in the elimination of existing businesses or create or expand businesses in the State of California. The benefits of the regulatory action to the health and welfare of California residents, worker safety, and the state’s environment are as follows:

It will allow for dependent Indian children to be offered permanence through customary tribal adoption practices without terminating parental rights. Termination of parental rights conflicts with many tribal teachings and cultural values and severs tribal connection. It is in the interest of Indian children to have their tribal membership and connection to tribal community protected. In addition, dependent Indian children, through tribal customary adoption, will be eligible for benefits from the Adoption Assistance Program.

STATEMENT OF EFFECT ON HOUSING COSTS

The proposed regulatory action will have no effect on housing costs.

CONSIDERATION OF ALTERNATIVES

CDSS must determine that no reasonable alternative it considered or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed,

would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

CDSS invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations at the scheduled hearing or during the public comment period.

In developing the regulatory action, CDSS considered the following alternatives with the following results: no other alternatives exist as ACL 10-47 was published in October 2010 to implement this legislation.

AUTHORITY AND REFERENCE CITATIONS

CDSS adopts these regulations under the authority granted in Welfare and Institutions (W&I) Code sections 358.1, 361.5, 366.21, 366.22, 366.24, 366.25, 366.26, 366.3, 10553, and 10554 and W&I Code 366.24 and ACL 10-47 are being referenced to make the regulations more specific.

CDSS REPRESENTATIVE REGARDING THE RULEMAKING PROCESS OF THE PROPOSED REGULATION

Contact Person: Oliver Chu (916) 657-2586
 Backup: Sylvester Okeke (916) 657-2586

GENERAL PUBLIC INTEREST

DEPARTMENT OF FISH AND WILDLIFE

PROPOSED RESEARCH ON FULLY PROTECTED SPECIES

Research on the Salt-Marsh Harvest Mouse

The Department of Fish and Wildlife (Department) received a proposal on June 16, 2018 from Dave Johnston, H. T. Harvey & Associates, requesting authorization to take the salt-marsh harvest mouse (*Reithrodontomys raviventris*) (mouse), a Fully Protected mammal, for scientific research purposes consistent with conservation and recovery of the species. The mouse is listed as Endangered under the California Endangered Species Act and Endangered under the federal Endangered Species Act.

Mr. Johnston is planning to conduct surveys throughout the historical range of the mouse in California, in accordance with a standard protocol approved by the De-

partment and the U.S. Fish and Wildlife Service (Service). The proposed research and population monitoring activities include capture using baited cage traps; handling, measuring and weighing; temporary marking via non-toxic ink or fur clipping; and release at the site of capture. Genetic samples will be collected (e.g., fur and fecal material) to help determine population status. If any mice are found dead, they will be salvaged (including any parts thereof) and donated to a scientific institution open to the public, as designated by the Department and the Service. No adverse effects on individual mice or mouse populations are expected.

The Department intends to issue, under specified conditions, a Memorandum of Understanding (MOU) that would authorize qualified professional wildlife researchers, with Mr. Johnston as the Principal Investigator, to carry out the proposed activities. The applicant is also required to have a valid federal recovery permit for the mouse and a Scientific Collecting Permit (SCP) to incidentally take other mammal species in California.

Pursuant to California Fish and Game Code (FGC) Section 4700(a)(1), the Department may authorize take of Fully Protected mammal species after a 30 day notice period has been provided to affected and interested parties through publication of this notice. If the Department determines that the proposed research is consistent with the requirements of FGC Section 4700 for take of Fully Protected mammals, it would issue the authorization on or after December 3, 2018, for an initial and renewable term of up to, but not to exceed, five years. Contact: Dr. Scott Osborn, Scott.Osborn@wildlife.ca.gov, (916) 324- 3564.

DEPARTMENT OF FISH AND WILDLIFE

PROPOSED RESEARCH ON FULLY PROTECTED SPECIES

Research on the Salt-Marsh Harvest Mouse

The Department of Fish and Wildlife (Department) received a proposal from David Riensche, East Bay Regional Park District, requesting authorization to take the salt-marsh harvest mouse (*Reithrodontomys raviventris*) (mouse), a Fully Protected mammal, for scientific research purposes consistent with conservation and recovery of the species. The mouse is listed as Endangered under the California Endangered Species Act and Endangered under the federal Endangered Species Act.

Mr. Riensche is planning to conduct surveys throughout the historical range of the mouse in California, in accordance with a standard protocol approved by the De-

partment and the U.S. Fish and Wildlife Service (Service). The proposed research and population monitoring activities include capture using baited cage traps; handling, measuring and weighing; temporary marking via non-toxic ink or fur clipping; and release at the site of capture. Genetic samples will be collected (e.g., fur) to help determine population status. If any mice are found dead, they will be salvaged (including any parts thereof) and donated to a scientific institution open to the public, as designated by the Department and the Service. No adverse effects on individual mice or mouse populations are expected.

The Department intends to issue, under specified conditions, a Memorandum of Understanding (MOU) that would authorize qualified professional wildlife researchers, with Mr. Riensche as the Principal Investigator, to carry out the proposed activities. The applicant is also required to have a valid federal recovery permit for the mouse and a Scientific Collecting Permit (SCP) to incidentally take other mammal species in California.

Pursuant to California Fish and Game Code (FGC) Section 4700(a)(1), the Department may authorize take of Fully Protected mammal species after a 30-day notice period has been provided to affected and interested parties through publication of this notice. If the Department determines that the proposed research is consistent with the requirements of FGC Section 4700 for take of Fully Protected mammals, it would issue the authorization on or after December 3, 2018, for an initial and renewable term of up to, but not to exceed, five years. Contact: Dr. Scott Osborn, Scott.Osborn@wildlife.ca.gov, (916) 324- 3564.

DEPARTMENT OF REAL ESTATE

NOTICE OF HEARING BY THE REAL ESTATE COMMISSIONER: ANNUAL FEE REVIEW — REQUIRED BY STATUTE

The Real Estate Commissioner proposes to consider whether the fees charged by the Department of Real Estate (“DRE”) should be lower than the maximum amount allowed pursuant to California Business and Professions Code (“the Code”) Sections 10209.5, 10210, 10214.5, 10215, 10250.3 and 11011. The Commissioner’s consideration will include all comments, objections and recommendations regarding such fees.

PUBLIC HEARING ANNOUNCEMENT

Sections 10226 and 11011 of the Code require, among other things, that at least one regulation hearing be held each calendar year to determine if fees lower than those authorized under Section 10226.5(b) of the

Code should be prescribed. The hearing referred to below shall serve as the regulation hearing for the purpose of satisfying the requirement of Sections 10226(a) and 11011(a) of the Code. DRE may present, at this hearing, relevant data compiled by the DRE, and other sources, if appropriate, that have been used or which may be used in making the determination if fees should be lower. There is no proposal to adopt, amend and/or repeal any sections of the California Code of Regulations (CCR) at this time. However, the Commissioner wishes to consider all comments, objections and recommendations regarding such fees.

DRE will hold a public hearing starting at 10:00 a.m., on December 19, 2018, at the DRE's Sacramento Office, located at 1651 Exposition Boulevard, Sacramento, California. The hearing room is wheelchair accessible. At the hearing, any person may present statements or arguments, orally or in writing, relevant to the proposed action. It is requested, but not required, that persons making oral comments at the hearing submit a written copy of their testimony.

WRITTEN COMMENT PERIOD

Any interested person, or his or her authorized representative, may submit written comments relevant to DRE's fee structure. The written comment period closes on December 19, 2018. All written comments must be received by 5:00 p.m. on that date at DRE's Sacramento Office as follows:

Daniel E. Kehew, Real Estate Counsel
 California Department of Real Estate
 P.O. Box 137007
 Sacramento, CA 95813-7007
 Telephone: (916) 263-8681

Backup contact person for this proposed action is Stephen Lerner at (916) 263- 8704.

DRE will mail or deliver a copy of this Hearing Notice by the Commissioner to DRE's list of interested persons including:

1. Every person who has filed a Request for Notice of Regulatory Action with DRE.
2. The Secretary of the Business, Consumer Services and Housing Agency.
3. A substantial number of real estate brokers. They are predominantly small businesses, some of which may be affected by any fee adjustment. (To restate: This announcement involves no such adjustment.) DRE has no way of knowing which licensees are small businesses.
4. The California Association of Realtors (a real estate licensee trade organization) and the

California Building Industry Association (a home builders trade organization).

5. A substantial number of land developers. Not small businesses by definition, they may, nevertheless, be affected by any fee adjustment. (To restate: This announcement involves no such adjustment.)

**RULEMAKING PETITION
 DECISION**

BUREAU OF AUTOMOTIVE REPAIR

**DECISION ON PETITION TO AMEND
 MOTOR VEHICLE INSPECTION
 PROGRAM REGULATIONS**

On October 15, 2018, the Bureau of Automotive Repair ("BAR") received a Petition to Adopt, Amend, or Repeal a Regulation, pursuant to Government Code sections 11340.6 and 11340.7, from Edward Turner ("Petitioner"). Petitioner requests that California Code of Regulations title 16, section 3340.15, subdivision (a) be amended to permit mobile Smog Check testing using a Bureau of Automotive Repair On-board Diagnostic Inspection System (BAR-OIS) installed in a van or other vehicle. The Petitioner's requested amendment would also require revision of BAR's Smog Check Manual, section 1.8.3, Required Equipment Location, incorporated by reference into California Code of Regulations title 16, section 3340.45.

In accordance with Government Code section 11340.7, subdivision (a), this document serves as BAR's response to the petition.

**PROVISIONS OF THE CALIFORNIA CODE OF
 REGULATIONS REQUESTED TO BE AFFECTED**

California Code of Regulations title 16, section 3340.15, subdivision (a) and Smog Check Manual, section 1.8.3, incorporated by reference into California Code of Regulations title 16, section 3340.45.

**REFERENCE TO AUTHORITY TO TAKE THE
 REQUESTED ACTION**

None provided by the Petitioner. The statutory authority applicable to California Code of Regulations title 16, section 3340.15, subdivision (a) is as follows:

Authority cited: Section 44002 and 44030, Health and Safety Code; and Section 9882 and 9884.9(b), Business and Professions Code.

The statutory authority applicable to BAR’s Smog Check Manual, incorporated by reference into California Code of Regulations title 16, section 3340.45 is as follows:

Authority cited: Section 44002, Health and Safety Code; and Section 9882, Business and Professions Code.

AGENCY DETERMINATION

The petition is **denied**.

REASONS SUPPORTING THE AGENCY DETERMINATION

California Code of Regulations title 16, section 3340.15, subdivision (a) requires emissions inspection systems to be located and used within a work area located in a building. Petitioner requests regulatory amendments to allow installation of a BAR–OIS in a van or other vehicle, which would allow for a mobile Smog Check.

BAR is required by California Health and Safety Code section 44001, subdivision (b)(5)(E) to administer a program that adheres to federal and state performance standards and that includes a vigorous and effective enforcement program utilizing performance monitoring of Smog Check stations and technicians. As currently regulated, Smog Check inspection systems must be located and used within a building. As a result, Smog Check operations, technicians, and equipment are located at a fixed facility having an easily–ascertainable address. This allows BAR to monitor and inspect in accordance with its mandated administration and enforcement of the program.

If Smog Check inspections were permitted to be mobile, the operations, technicians and equipment would not be in a fixed location. The itinerant nature of mobile Smog Check inspections would hamper BAR’s ability to fulfill its statutory mandate of administering a vigorous and effective Smog Check enforcement program because it would be difficult for BAR to locate and effectively monitor the performance of Smog Check stations and technicians through on–site inspections and surveillance activities.

Petitioner refers to his planned adherence to the laws and rules of the Motor Vehicle Inspection Program, argues that he is working toward improving California’s air quality and states that he would welcome BAR’s inspections and monitoring. However, BAR must ensure the minimum standards are being met by all, not just by the Petitioner.

Due to concerns regarding the effect mobile inspections may have on compliance, including a potential increase in Smog Check–related fraud and difficulty with BAR conducting effective inspection and enforcement activities, the petition to amend California Code of Regulations title 16, section 3340.15, subdivision (a) and BAR’s Smog Check Manual, section 1.8.3, incorporated by reference into CCR title 16, section 3340.45, is denied.

AGENCY CONTACT PERSON

Brian Clark
Bureau of Automotive Repair
10949 North Mather Blvd.
Rancho Cordova, California, 95670
Telephone: (916) 403–8560
Fax: (916) 464–3424
