INFORMATIVE DIGEST

Summary of Existing Laws and Effect of the Proposed Action

Government Code section 11340.5 requires agencies to adopt regulations pursuant to the Administrative Procedure Act (APA) unless there is an express statutory exemption. Government Code section 11343 requires agencies to deliver notices of proposed regulatory action and transmit certified copies of proposed regulation text to OAL and requires certification of proposed regulation text to be made by the agency head or their delegate in writing. Existing regulations in chapter 1, division 1, title 1 of the California Code of Regulations (CCR) establish requirements and procedures for submitting these and other related documents to OAL.

The Uniform Electronic Transactions Act (UETA) (Civil Code, sections. 1633.1-1633.17) provides that laws requiring records in writing or handwritten signatures may be satisfied by electronic records or electronic signatures, respectively. Government Code section 16.5 defines a “digital signature” as a type of electronic signature under the UETA and sets forth a list of attributes that digital signatures must embody in order to be used or accepted by public entities in California, including all state agencies. Existing regulations promulgated by the California Secretary of State in chapter 10, division 7, title 2 of the CCR further implement Government Code section 16.5.

The changes proposed in this rulemaking action would reduce the number of hard-copy documents required for submission of notices of proposed action. The proposed changes would establish new procedures for electronic submission of notices of proposed action, certified regulation text, rulemaking files, and other APA-related documents to OAL. The proposed changes would establish detailed requirements for electronic submissions, including file format types, file size limits, email addresses, and daily cutoff times. The proposed changes would allow agency heads and their delegates to certify regulation text using digital signatures created in compliance with existing law.

Anticipated Benefits of the Proposed Regulations

The objective of these regulations is to provide state agencies with a straightforward, efficient, paperless process for submitting all but the largest notices of proposed action, regulatory actions, and changes without regulatory effect to OAL.

Evaluation of Inconsistency/Incompatibility with Existing State Regulations

The only existing state regulations concerning submission of the APA-related documents described above to OAL are in division 1, title 1 of the CCR. After careful evaluation, OAL has determined that the proposed changes are not inconsistent or incompatible with existing regulations.

DISCLOSURES REGARDING THE PROPOSED ACTION

OAL has made the following initial determinations:
Mandate on local agencies or school districts: None.

Cost or savings to any state agency: OAL anticipates that the proposed changes will lead to a reduction in printing materials (e.g., paper, toner) used for purposes of submitting APA-related documents to OAL, which should result in a small savings to state agencies.

Cost to any local agency or school district which must be reimbursed in accordance with Government Code sections 17500 through 17630: None.

Other nondiscretionary cost or savings imposed on local agencies: None.

Cost or savings in federal funding to the state: None.

Significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states: None.

Significant effect on housing costs: None.

Cost impacts on a representative private person or business: OAL is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed regulations.

Results of the Economic Impact Analysis/Assessment

OAL concludes that it is unlikely that the proposal will (1) eliminate any jobs, (2) create any jobs, (3) create any new businesses, or (4) eliminate any existing businesses or result in the expansion of businesses currently doing business within the state. OAL believes allowing electronic submission of documents will reduce paper usage by state agencies, which may be beneficial to the environment. OAL believes allowing electronic submission of documents will reduce interpersonal contact and handling of paper documents, which may lessen exposure and transmission of diseases and increase worker safety.

Small Business Determination

The proposed regulations will not affect small businesses. These regulations establish procedures that only state agencies must follow.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), OAL must determine that no reasonable alternative it considered or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed, as effective and less burdensome to affected private persons than the proposed action, or more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

OAL invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations during the written comment period.

AUTHORITY

Government Code Sections 82011, 87303 and 87304 provide that the Fair Political Practices Commission as the code-reviewing body for the above conflict-of-interest codes shall approve codes as submitted, revise the proposed code and approve it as revised, or return the proposed code for revision and re-submission.

AUTHORITY AND REFERENCE

The Department proposes adopting 4 CCR sections 15037.1 and 15037.2. BPC sections 26012, 26013, and 26260 authorize the Department to prescribe, adopt, and enforce the regulations governing the information sharing with financial institutions. These regulations will implement, interpret, make specific, or reference BPC section 26260.

INFORMATIVE DIGEST/POLICY
STATEMENT OVERVIEW

Existing Law

The Department gathers substantial information related to licensees, including application materials, licensee information, financial information, and regulatory information. Much of this information is protected from disclosure under the California Public Records Act (PRA), Information Practices Act, and other legal provisions, including the various statutes and regulations under which the Department operates. Therefore, this information is only provided in very specific circumstances. Newly added BPC section 26260 allows the sharing of this information with financial institutions, when authorized by the licensee.

Existing law requires the Department to establish a track-and-trace program for reporting the movement of cannabis and cannabis products throughout the distribution chain. Information received and contained in records kept by the Department pursuant to the track-and-trace program are confidential and exempt from disclosure pursuant to the PRA, except as necessary for authorized employees of the State of California or any city, county, or city and county, to perform official duties pursuant to Medicinal and Adult-Use Cannabis Regulation and Safety Act (MAUCRSA) or a local ordinance.

Further, upon the request of a state or local law enforcement agency, the Department shall allow access to or provide information contained within the database to assist law enforcement in their duties and responsibilities.

Policy Statement

Regulation Objectives

The Department has developed this regulation to further clarify or make specific sections of MAUCRSA pertaining to information sharing with financial institutions. The regulations will continue to:

- Address the obligation of the Department to allow information sharing with financial institutions, including information that is otherwise not subject to public disclosure.
- Establish a regulatory process for licensees to request and permit the Department to share financial information with their financial institution(s).
- Establish a regulatory process for financial institutions to request and permit the Department to share financial information of a licensee for the purposes of facilitating the provision of financial services.
- Establish a regulatory process for licensees to withdraw a request for sharing licensee financial information at any time.

There are no documents incorporated by reference.

Anticipated Benefit of the Proposed Regulations

Making the Department’s proposed regulations permanent will allow the Department to continue to provide a safe harbor, under state law, for financial institutions and accountants, which will allow more banks to conduct cannabis-related business. For example, financial institutions may be more likely to grant capital for business development (loans, lines of credit, etc.) for cannabis entrepreneurs. This will expand the limited funding for cannabis entrepreneurs, whereas individuals currently rely upon their own funding or investors, limiting the cannabis industry’s ability to expand. Secondly, normalizing access to banking services for cannabis entrepreneurs will help ensure that financial institutions and accountants, as well as cannabis producers, distributors, retailers, and other licensees, are in compliance with the state’s laws, thus removing the threat of criminal penalties that previously existed. This could have a positive impact on the industry and lead to more stable business decisions.

Making the proposed regulations permanent will also continue to positively magnify California’s economy by removing the threat of criminal penalties for financial institutions and accountants, making capital available to cannabis entrepreneurs, and helping cannabis operations become transparent regulated tax-paying businesses.

Additionally, access to banking is important for worker safety, as it eliminates a cannabis business’ need to maintain a large amount of cash on its premises, which can make the business a target for criminal activity. This is particularly important for retailers that are open to the public.

EVALUATION OF INCONSISTENCY/
INCOMPATIBILITY WITH EXISTING
STATE REGULATIONS

As required by Gov. Code section 11346.5(a)(3)(D), the Department has conducted an evaluation of these proposed regulations and has determined that they are not inconsistent or incompatible with existing regulations.

EVALUATION OF INCONSISTENCY WITH
FEDERAL REGULATION STATUTE

The United States Drug Enforcement Administration (DEA) under the Controlled Substances Act lists cannabis as a Schedule 1 Drug. This means that commercial cannabis activity is illegal under federal law. However, California, through the MAUCRSA and other laws, has decriminalized the cultivation, sale,

and possession of cannabis and cannabis products for persons aged 21 or older and for medicinal patients.

PLAIN ENGLISH REQUIREMENT

Department staff prepared these proposed regulations pursuant to the standard of clarity provided in Government Code section 11349 and the plain English requirements of Government Code sections 11342.580 and 11346.2, subsection (a)(1). The proposed regulations are written to be easily understood by the persons that will use them.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Department has made the following initial determinations:

Local mandate: There will be no local mandate.

Cost to any local agency or school district requiring reimbursement pursuant to Government Code section 17500, et seq: None.

Any other non-discretionary cost or savings imposed upon local agencies: None.

Cost or savings to any state agency: None.

Cost or savings in federal funding to the state: None.

ECONOMIC IMPACT AND FISCAL IMPACTS

Business Impact

The Department of Cannabis Control (Department) has 12,012 licensees as of October 25, 2021. The businesses impacted by the regulation are all licensed commercial cannabis businesses.

Estimated Costs to Businesses

The proposed regulations require licensees to complete and submit a form prescribed by the Department to permit the sharing of their financial information by the Department with licensees' financial institution(s). If the form is submitted electronically, the Department has determined that licensees will be able to complete and submit the form electronically in a few minutes. As a result, no additional costs are anticipated. If the form is submitted by mail, licensees will still be able to complete the form in a few minutes, which is not anticipated to increase costs, but licensees will incur mail postage costs ranging from \$0.55 (first class) to \$3.55 (certified) per licensee. To the extent all 12,012 licensees opt to submit the form, the total economic impact would range from \$6,606 (first class) to \$42,642 (certified). However, based on current submission methods to the Department, it is anticipated that most licensees will utilize electronic submission.

Estimated Benefits of Regulation

Assembly Bill 1525 specifies that a licensee may authorize a financial institution to receive specific information from the Department. The Department anticipates that this sharing of data will increase the number of financial institutions willing to provide banking services to cannabis businesses. Access to banking is important for worker safety as it eliminates a cannabis business' need to maintain a large amount of cash on the premises that can make the business a target for criminal activity.

Fiscal Effect on State Government

The proposed regulations govern licensees and financial institutions seeking licensee information, while implementing the statutory requirement for Department staff to process requests submitted by licensees and financial institutions for licensee financial information. Processing a request includes verifying requesting entities are financial institutions, reviewing and analyzing application, license, and enforcement documents from the Department's cannabis licensing systems to determine disclosable information, redacting protected information, and preparing disclosable information for release to financial institutions. Through the budget process, the Department has already received two positions to process this workload resulting from the statute.

The proposed regulations simply require a form to be filled out by the licensee authorizing the release of information and identifying which information may be shared, and a form to be filled out by the financial institution requesting the information and identifying the information they seek. This will assist the Department in processing the requests as required by the statute but does not alter the Department's workload created by the statute. Thus, there is not fiscal effect on state government as a result of the proposed regulations.

The Department has determined that the proposed regulations will not affect small businesses. Small businesses that are licensed by the Department will not incur any additional costs due to the proposed regulations.

Results of Economic Impact Assessment

The proposed regulations will not have a significant adverse economic impact on businesses.

The Department does not anticipate the creation or elimination of jobs or licensed businesses, or the expansion of existing businesses, as a result of the proposal.

This regulatory proposal benefits the health and welfare of California residents for the reasons stated above. The proposal does not benefit or negatively impact the State's environment because the proposed regulatory action does not involve any topic that

induces harm or benefit to the environment in the State. The proposal is anticipated to benefit worker safety as it eliminates a cannabis business' need to maintain a large amount of cash on the premises that can make the business a target for criminal activity.

CONSIDERATION OF ALTERNATIVES

No reasonable alternative to the regulatory proposal would be either more effective in carrying out the purpose for which the action is proposed or would be as effective or less burdensome to affected private persons and equally effective in achieving the purposes of the regulations in a manner that ensures full compliance with the law being implemented or made specific.

Set forth below are the alternatives which were considered and the reasons each alternative was rejected:

1. Option 1: Not adopt the proposed regulations. This alternative was rejected because AB 1525, as codified in BPC section 26260, requires the Department to provide information to financial institutions when authorized by the licensee. If the Department does not adopt the proposed regulations, there will be no specific process for licensees and financial institutions to follow to have the information disclosed.
2. Option 2: Do not require a written request or waiver from a licensee. This alternative was rejected because AB 1525, as codified in BPC section 26260, requires that all requests and waivers for release of licensee information be submitted to the licensing authorities in writing. To ensure that the Department has appropriate authorization to disclose the information to particular financial institutions, it is necessary to adopt these proposed regulations requiring written authorization. These proposed regulations are also necessary to ensure accurate recordkeeping of each request received by the Department.
