## SUMMARY OF REGULATORY ACTIONS

<i>Regulations filed with the Secretary of State</i> .....	114
<i>Sections Filed October 1, 2022, to December 31, 2022</i> .....	115

---

The *California Regulatory Notice Register* is an official state publication of the Office of Administrative Law containing notices of proposed regulatory actions by state regulatory agencies to adopt, amend or repeal regulations contained in the California Code of Regulations. The effective period of a notice of proposed regulatory action by a state agency in the *California Regulatory Notice Register* shall not exceed one year [Government Code § 11346.4(b)]. It is suggested, therefore, that issues of the *California Regulatory Notice Register* be retained for a minimum of 18 months.

CALIFORNIA REGULATORY NOTICE REGISTER is published weekly by the Office of Administrative Law, 300 Capitol Mall, Suite 1250, Sacramento, CA 95814-4339. The Register is printed by Barclays, a subsidiary of West, a Thomson Reuters Business, and is offered by subscription for \$205.00 (annual price). To order or make changes to current subscriptions, please call (800) 328-4880. The Register can also be accessed at <https://oal.ca.gov>.

<p><b>PROPOSED ACTION ON REGULATIONS</b></p>
--

*Information contained in this document is published as received from agencies and is not edited by Thomson Reuters.*

**TITLE 2. FAIR POLITICAL  
PRACTICES COMMISSION**

NOTICE IS HEREBY GIVEN that the Fair Political Practices Commission, pursuant to the authority vested in it by Sections 82011, 87303, and 87304 of the Government Code to review proposed conflict-of-interest codes, will review the proposed/amended conflict-of-interest codes of the following:

**CONFLICT-OF-INTEREST CODES**

**AMENDMENT**

**MULTI-COUNTY:**

California Mental Health Services Authority  
Livermore Valley Joint Unified School District

**STATE AGENCY:**

Department of General Services

**ADOPTION**

**MULTI-COUNTY:**

California Pacific Charter Schools

A written comment period has been established commencing on February 3, 2023 and closing on March 20, 2023. Written comments should be directed to the Fair Political Practices Commission, Attention Daniel Vo, 1102 Q Street, Suite 3000, Sacramento, California 95811.

At the end of the 45-day comment period, the proposed conflict-of-interest codes will be submitted to the Commission's Executive Director for his review, unless any interested person or his or her duly authorized representative requests, no later than 15 days prior to the close of the written comment period, a public hearing before the full Commission. If a public hearing is requested, the proposed codes will be submitted to the Commission for review.

The Executive Director of the Commission will review the above-referenced conflict-of-interest codes, proposed pursuant to Government Code Section 87300, which designate, pursuant to Government Code Section 87302, employees who must disclose certain investments, interests in real property and income.

The Executive Director of the Commission, upon his or its own motion or at the request of any interested person, will approve, or revise and approve, or return the proposed codes to the agency for revision and re-submission within 60 days without further notice.

Any interested person may present statements, arguments or comments, in writing to the Executive Director of the Commission, relative to review of the proposed conflict-of-interest codes. Any written comments must be received no later than March 20, 2023. If a public hearing is to be held, oral comments may be presented to the Commission at the hearing.

**COST TO LOCAL AGENCIES**

There shall be no reimbursement for any new or increased costs to local government which may result from compliance with these codes because these are not new programs mandated on local agencies by the codes since the requirements described herein were mandated by the Political Reform Act of 1974. Therefore, they are not "costs mandated by the state" as defined in Government Code Section 17514.

**EFFECT ON HOUSING  
COSTS AND BUSINESSES**

Compliance with the codes has no potential effect on housing costs or on private persons, businesses or small businesses.

**AUTHORITY**

Government Code Sections 82011, 87303 and 87304 provide that the Fair Political Practices Commission as the code-reviewing body for the above conflict-of-interest codes shall approve codes as submitted, revise the proposed code and approve it as revised, or return the proposed code for revision and re-submission.

**REFERENCE**

Government Code Sections 87300 and 87306 provide that agencies shall adopt and promulgate conflict-of-interest codes pursuant to the Political Reform Act and amend their codes when change is necessitated by changed circumstances.

**CONTACT**

Any inquiries concerning the proposed conflict-of-interest codes should be made to Daniel Vo, Fair Political Practices Commission, 1102 Q Street, Suite 3000, Sacramento, California 95811, telephone (916) 322-5660.

AVAILABILITY OF PROPOSED  
CONFLICT-OF-INTEREST CODES

Copies of the proposed conflict-of-interest codes may be obtained from the Commission offices or the respective agency. Requests for copies from the Commission should be made to Daniel Vo, Fair Political Practices Commission, 1102 Q Street, Suite 3000, Sacramento, California 95811, telephone (916) 322-5660.

**TITLE 14. DEPARTMENT  
OF RESOURCES  
RECYCLING AND RECOVERY**

DIVISION 2. DEPARTMENT OF  
CONSERVATION  
CHAPTER 5. DIVISION OF RECYCLING  
AB 793 PLASTIC CONTENT  
REPORTING AND COMPLIANCE  
PERMANENT REGULATIONS

NOTICE IS HEREBY GIVEN that Department of Resources Recycling and Recovery, Division of Recycling (CalRecycle), proposes to adopt amendments as described in the Informative Digest. After considering all comments, objections, and recommendations regarding the proposed action, CalRecycle may adopt the proposals substantially as described in the Informative Digest or may modify such proposals if such modifications are sufficiently related to the original text.

**PUBLIC HEARING**

CalRecycle will hold a hybrid public hearing starting at 1:00 p.m. on March 21, 2023. The public hearing will be accessible in person in the Sierra Hearing Room located on the 2<sup>nd</sup> floor of the CalRecycle headquarters at 1001 I Street, Sacramento, California. The Sierra Hearing room is wheelchair accessible. The public hearing will also be accessible virtually via Zoom. Instructions for how to access the Zoom public hearing, including the specific Zoom link, can be found on CalRecycle's website, [www.calrecycle.ca.gov/Laws/Rulemaking/](http://www.calrecycle.ca.gov/Laws/Rulemaking/).

At the public hearing, any person may present statements or arguments, orally, in writing, or in the chat of the Zoom meeting, relevant to the proposed action. CalRecycle requests, but does not require, that any person who makes oral comments also submit a written copy of their testimony at the hearing. All comments in the virtual hearing will be collected and recorded.

**WRITTEN COMMENT PERIOD**

The written comment period permits any interested person, or their authorized representative, to submit written comments addressing the proposed amendments to CalRecycle. Written comments, which offer a recommendation and/or objection, or support the proposed amendment, should indicate the amended section to which the comment or comments are directed. CalRecycle will only consider written comments sent to CalRecycle and received during the written comment period, which begins on February 3, 2023, and ends at the conclusion of the rulemaking hearing on March 21, 2023. Additionally, CalRecycle requests that written comments reference a subsection or section of the proposed action. Written comments received by CalRecycle after the close of the public comment period will not be responded to in the rulemaking file. Submit your written comments to:

Claire Derksen  
AB 793 Plastic Content Reporting and  
Compliance Permanent Regulations  
Department of Resources Recycling and  
Recovery, Regulations Unit  
1001 I Street, MS-24B, Sacramento, CA 95812.

During the comment period, written comments may also be emailed to: [Regulations@calrecycle.ca.gov](mailto:Regulations@calrecycle.ca.gov)

**AUTHORITY AND REFERENCE**

Authority: Public Resources Code sections 14530.5 and 14536 authorize CalRecycle to adopt these proposed regulations.

Reference: The proposed regulations implement, interpret, and make specific sections 14547 and 14549.3 of the Public Resources Code by proposing changes to sections 2000, 2100, 2235, and 2240 and adding new sections 2250, 2260, 2265, 2780, 2785, 2790, and 2795 to Chapter 5, Division 2, Title 14 of the California Code of Regulations.

**INFORMATIVE DIGEST/  
POLICY STATEMENT**

**Summary of Existing Laws and Effect of the Proposed Action**

The California Beverage Container Recycling and Litter Reduction Act, Public Resources Code (Pub. Res. Code) section 14500 et seq. (Act), created the California Beverage Container Recycling Program (BCRP). The Department of Resources Recycling and Recovery (Department or CalRecycle), Division of Recycling (Division) administers the Beverage Container Recycling Program which was created through the Act as a California Redemption Value

(CRV) deposit and return system to reduce the beverage container component of litter and create convenient beverage container recycling opportunities in the state. CalRecycle is tasked with ensuring consumers throughout the state have convenient recycling options to which they can return their CRV beverage containers and claim their deposit. CalRecycle is also tasked with monitoring and enforcing the usage of postconsumer recycled (PCR) plastic content in the manufacturing of plastic beverage containers subject to CRV.

AB 2530 (Chapter 861, Statutes of 2016) required a manufacturer of a beverage (beverage manufacturer) sold in a plastic beverage container subject to CRV to report to CalRecycle the amount of virgin plastic and PCR plastic used by the manufacturer for plastic CRV-eligible beverages sold in the state during the previous calendar year.

CalRecycle is required to post the reported information on CalRecycle's public website annually.

Existing law, AB 793 (Chapter 115, Statutes of 2020), Pub. Res. Code section 14549.3, requires beverage manufacturers to report to CalRecycle the amount in pounds by resin type of virgin and postconsumer recycled plastic used by the manufacturer for plastic beverage containers subject to CRV for sale in the sale for the previous calendar year.

The proposed regulations adopt definitions for postconsumer recycled material and post-industrial recycled material and establish the form and manner for beverage manufacturers to submit this required reporting to CalRecycle. These regulations also add a documentation retention requirement and specifies the kinds of documents required to be kept as evidence for postconsumer recycled plastic used in plastic beverage containers subject to CRV.

Existing law, AB 793, Pub. Res. Code section 14549.3 requires a plastic material reclaimer to report to CalRecycle the amount in pounds and by resin type of empty plastic beverage containers subject to the CRV, that the plastic material reclaimer collected and sold in the previous year.

The proposed regulations adopt a definition for plastic material reclaimer, clarify that an identification number will be provided by CalRecycle to a plastic material reclaimer, and establish the form and manner for a plastic material reclaimer to submit the plastic material reclaimer report to CalRecycle.

Existing law, AB 793, Pub. Res. Code section 14549.3, requires a manufacturer of postconsumer recycled plastic to report to CalRecycle the amount in pounds of food-grade flake, pellet, sheet, fines, or other forms that were sold in the previous calendar year; their capacity to produce food-grade material, specifying the amount in pounds of material that meets beverage manufacturer specifications for bottle-grade material; and to include the amount in

pounds of food-grade material sold in the state for beverage processing.

The proposed regulations adopt a definition of a manufacturer of postconsumer recycled plastic, definitions for food-grade and bottle-grade, a clarification that an identification number will be provided by CalRecycle to a manufacturer of postconsumer recycled plastic, and the form and manner for a manufacturer of postconsumer recycled plastic to submit the manufacturer of postconsumer recycled plastic report to CalRecycle.

Existing law, AB 793, Pub. Res. Code section 14547, provides beverage manufacturers, through an association, to petition the Director of CalRecycle to adjust the minimum postconsumer recycled plastic content standards annually beginning on January 1, 2025.

The proposed regulations establish that on or after January 1, 2025, an association that petitions the Director to adjust the minimum postconsumer recycled plastic content standard must represent at least 35% of all registered beverage manufacturers that reported plastic beverage containers for the previous calendar year. These regulations also establish the form and manner for the association to submit the petition to CalRecycle, a deadline of December 1 to file a petition, and a date of May 1, in the subsequent year, by when the Director will either grant or deny the petition.

Existing law, AB 793, Pub. Res. Code section 14547, establishes minimum postconsumer recycled plastic content standards for plastic beverage containers subject to CRV and the administrative penalties for not meeting those minimum postconsumer recycled plastic content standards. This section permits beverage manufacturers to request a reduction in administrative penalties and requires beverage manufacturers to obtain approval of a corrective action plan before any request is granted by the Director of CalRecycle.

The proposed regulations establish the form and manner for a beverage manufacturer to submit a request for reduction in administrative penalties and corrective action plans. The proposed regulations establish when a request for reduction in administrative penalties must be submitted to CalRecycle. The proposed regulations establish and clarify the criteria that the Director of CalRecycle will use when deciding to grant or deny a reduction in administrative remedies.

Existing law, Pub. Res. Code section 14591.1(a)(2) and section 2100 of title 14 of the California Code of Regulations, establish a notice of violation process for the assessment of civil penalties of less than \$1000 for specified violations of the Act and the adopted regulations for the Act.

The proposed regulations amend section 2100 to include Pub. Res. Code section 14549.3 to make clear that failure to file a required report correctly

and accurately by a beverage manufacturer, a plastic material reclaimer, or a manufacturer of postconsumer recycled plastic may be subject to discipline through the Notice of Violation process.

**Statement on Substantial Difference from Existing, Comparable Federal Regulation or Statute**

CalRecycle evaluated this regulatory proposal and determined that it does not have any substantial differences from existing, comparable federal regulations or statutes.

**Policy Statement Overview/Anticipated Benefits of Proposal**

The goal of AB 793 is to help develop domestic markets for recycled plastic, reduce the amount of virgin plastic used, and provide a closed-loop solution for plastic beverage containers by establishing minimum PCR plastic content standards for plastic beverage containers subject to CRV.

The proposed regulations and amendments to existing regulations provide the following benefits that are aligned with the goals of AB 793:

- Defines reporting entities (plastic material reclaimer and manufacturer of postconsumer recycled plastic) and the goods whose production volume they are required to report (bottle-grade plastic and food-grade plastic) as specified in Pub. Res. Code sections 14549.3(b) and (c).
- Clarifies the procedures and information required for an association of a group of beverage manufacturers to petition CalRecycle to reduce the PCR plastic minimum content standard as specified in Pub. Res. Code section 14547(a)(4)(A).
- Provides the form and manner for completing mandated reporting by beverage manufacturers, plastic material reclaimers, and manufacturers of postconsumer recycled plastic specified in Pub. Res. Code section 14549.3.
- Includes recordkeeping requirements of minimum recycled plastic content documentation for beverage manufacturers to facilitate reporting the content of virgin and PCR plastic specified in Pub. Res. Code section 14549.3(a).
- Establishes the procedures and information required for a request to reduce administrative penalties and submission of corrective action plans by individual beverage manufacturers as permitted by Pub. Res. Code section 14547(e).
- Permits CalRecycle to use the Notice of Violation process in section 2100 of title 14 of the California Code of Regulations to impose discipline on beverage manufacturers, plastic material reclaimers, and manufacturers of postconsumer recycled plastic for failure to submit required reports accurately and correctly, which is a less costly form of discipline and permits for lower assessments of

civil penalties when compared to the other discipline provisions of the Act.

Additionally, the proposed regulations will benefit the health and welfare of California residents along with the state's environment by providing the specificity necessary to implement a minimum PCR plastic standard for plastic beverage containers, which will increase the demand for recycled plastic, reduce plastic litter, and increase the use of recycled plastic in the manufacture of plastic beverage containers thereby reducing greenhouse gas emissions, as compared to the use of virgin plastic. There are no anticipated benefits to worker safety, the prevention of discrimination, the promotion of fairness or social equity, or an increase in transparency in business and government.

**Consistency and Compatibility with Existing State Regulations**

CalRecycle evaluated this regulatory proposal and determined that it is not inconsistent nor incompatible with existing state regulations. The proposed regulations will not be duplicative of other existing regulations as the BCRP is unique to the state of California, and there is no other agency outside of CalRecycle that administers payments and claims for recycling beverage containers. Additionally, there is no other program within the state of California that administers or imposes requirements for minimum postconsumer recycling content of beverage containers subject to CRV or for any other type of food or drink container sold in California.

**Incorporation by Reference**

This proposed regulatory action does not incorporate any documents by reference.

**MANDATED BY FEDERAL  
LAW OR REGULATIONS**

CalRecycle has evaluated this regulatory proposal and has determined that it is not inconsistent nor incompatible with existing federal regulations or statutes. The Act which created the BCRP, pursuant to Pub. Res Code section 14500 et seq., is unique to the state of California.

**LOCAL MANDATE**

CalRecycle made the following initial determination:  
**Mandate on Local Agencies and School Districts:**  
None.

**FISCAL IMPACT**

CalRecycle made the following initial determinations:

**Costs or Savings to Any State Agency:** There is no fiscal impact to any state agency.

**Cost to Any Local Agency or School District for Which Government Code sections 17500–17630 Require Reimbursement:** None.

**Nondiscretionary Costs/Savings to Local Agencies:** None.

**Costs/Savings in Federal Funding to the State:** None.

**HOUSING COSTS**

**Effect on Housing Costs:** None.

**DETERMINATION ON SIGNIFICANT STATEWIDE ADVERSE ECONOMIC IMPACT DIRECTLY AFFECTING BUSINESS**

**Business Impact**

CalRecycle determines that the proposed regulatory action would have no significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. This proposal is not intended to create, expand, or eliminate businesses within the State of California. The scope of the proposed regulations is limited to the form and manner of implementing the reporting requirements, administrative penalties, and relief measures to reduce administrative penalties.

**RESULTS OF ECONOMIC IMPACT ASSESSMENT/ANALYSIS:**

**Statement of the Results of Economic Impact Assessment and Impact on Jobs/Businesses**

CalRecycle does not anticipate that any jobs will be created or eliminated within California, or that any new businesses will be created, or existing businesses eliminated within California because of these regulations. CalRecycle also does not anticipate any expansion of businesses currently doing business within California because of these regulations. This proposal is not intended to create or eliminate jobs.

**Benefits of Regulation**

The scope of these proposed regulations is generally limited to the form and manner of implementing the reporting requirements, administrative penalties, and relief measures from administrative penalties. The proposed amendments will provide the benefit of clarifying the language introduced by AB 793 and provide the method for implementing the reporting requirements and penalties. The proposed regulations are also in alignment with and are anticipated to provide benefits relating to the goal of AB 793 to help develop domestic markets for recycled plastic, reduce the amount of virgin plastic used, and provide a closed-loop solution for plastic beverage containers by

establishing minimum PCR plastic content standards for plastic beverage containers subject to CRV.

Additionally, the proposed regulations will benefit the health and welfare of California residents along with the state’s environment by providing the specificity necessary to implement a minimum PCR plastic standard for plastic beverage containers, which will increase the demand for recycled plastic, reduce plastic litter, and increase the use of recycled plastic in the manufacture of plastic beverage containers thereby reducing greenhouse gas emissions, as compared to the use of virgin plastic. There are no anticipated benefits to worker safety, the prevention of discrimination, the promotion of fairness or social equity, or an increase in transparency in business and government.

**COST IMPACTS ON REPRESENTATIVE PERSON OR BUSINESS**

CalRecycle estimates the cost impact of this proposed regulation on a representative private person or business is generally limited to the form and manner of reporting a minimum PCR content standard for plastic beverage containers as specified in Pub. Res. Code section 14549.3, preparing and submitting corrective action plans, requests for a reduction in administrative remedies as specified in Pub. Res. Code section 14547, and preparing and submitting petitions to the Director of CalRecycle to adjust the postconsumer recycled plastic minimum content standard as specified in Pub. Res. Code section 14547.

**BUSINESS REPORT**

Pub. Res. Code section 14549.3 requires three entities to submit specific reports: beverage manufacturers that offer plastic beverage containers for sale in the state, manufacturers of postconsumer recycled plastic, and plastic material reclaimers. These regulations establish the form and manner of those reports. Consequently, CalRecycle determined that this regulatory proposal requires reports. This regulatory proposal does not introduce any new reports.

CalRecycle finds that the documentation required by manufacturers of postconsumer recycled plastic, plastic material reclaimers, and beverage manufacturers that offer plastic beverage containers for sale in the state is necessary for the health, safety and welfare of the people of the state. It is also necessary that the proposed regulations apply to businesses that sell plastic beverage containers, reclaim PCR material, and manufacture PCR material.

## EFFECT ON SMALL BUSINESS

Approximately 695 businesses will be impacted by these proposed regulations, of which 668 are beverage manufacturers that sell beverages in plastic beverage containers and 27 are plastic material reclaimers or manufacturers of PCR plastic. Of the 668 beverage manufacturers impacted, 494 are considered small businesses defined as those paying less than \$15,000 annually in processing fees for all material types pursuant to Pub. Res. Code section 14575(d). Of the 27 plastic material reclaimers and manufacturers of PCR plastic impacted, 9 are considered small businesses defined as receiving less than \$100,000 annually in Plastic Market Development Payments pursuant to Pub. Res. Code section 14549.2. The amount of Plastic Market Development Payments is directly related to the volumetric production of a business and therefore provides insight into a business's size and capacity.

The total number of small businesses impacted is 503 or 72 percent of the total (695) businesses identified.

## ALTERNATIVES INFORMATION

In accordance with Government Code section 11346.5(a)(13), CalRecycle must determine that no reasonable alternative considered or that has otherwise been identified and brought to the attention of the agency would be more effective in carrying out the purpose for which the action is proposed, or would be as effective and less burdensome to affected private persons than the proposed action described in this Notice, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

CalRecycle invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations during the written comment period, or at the scheduled public hearing.

## CONTACT PERSONS

Inquiries or comments concerning the proposed rulemaking action may be addressed to:

Claire Derksen  
1001 I Street, MS-24B  
Sacramento, CA 95812  
E-Mail: [Regulations@calrecycle.ca.gov](mailto:Regulations@calrecycle.ca.gov)  
Telephone: (916) 327-0089

The backup contact person is:

Craig Castleton  
1001 I Street, MS-24B  
Sacramento, CA 95812  
E-Mail: [Regulations@calrecycle.ca.gov](mailto:Regulations@calrecycle.ca.gov)  
Telephone: (916) 327-0089

## AVAILABILITY STATEMENTS

### **Availability of Initial Statement of Reasons, Text of Proposed Regulations, Information Upon Which this Proposal is Based, and Rulemaking File**

CalRecycle has prepared an initial statement of reasons for the proposed action. Copies of the proposed regulation text, the initial statement of reasons, and all the information upon which this proposal is based is available upon request or at our website: [www.calrecycle.ca.gov/Laws/Rulemaking/](http://www.calrecycle.ca.gov/Laws/Rulemaking/).

All the information upon which the proposed regulations are based is contained in the rulemaking file, which is available for public inspection during normal business hours at CalRecycle, 1001 I Street, 24th Floor, Sacramento, California 95812, by contacting the contact person identified in this notice.

### **Availability of Documents for Physical Inspection Only**

CalRecycle will not make the following documents available from the website, but will make the following documents available for public inspection at the location explained below:

*Attachment 1: The Plastic Beverage Container Virgin and Postconsumer Resin Report* covering calendar year 2021 documents will only be available for physical inspection

and

*Attachment 3: The International Standard ISO 14021: Environmental labels and declarations — Self-declared environment claims (Type II environmental labeling)*

These documents are available for public inspection during normal business hours at CalRecycle, 1001 I Street, 24th Floor, Sacramento, California 95812, by contacting the contact person identified in this notice.

### **Availability of Modified Text**

After considering all timely comments received CalRecycle may adopt the proposed regulations substantially as described in this notice. If CalRecycle makes modifications, which are sufficiently related to the originally proposed text, the full modified text with the changes clearly indicated shall be made available to the public for at least 15 days prior to the date on which CalRecycle adopts the resulting regulations. Requests for copies of any modified regulations should be addressed to CalRecycle contact person identified in this notice. CalRecycle will accept written comments

on the modified regulations for 15 days after the date on which they are first made available to the public.

**Availability of the Final Statement of Reasons**

Upon its completion, copies of the Final Statement of Reasons may be obtained by request from the contact person identified in this notice or accessed through CalRecycle’s website at [www.calrecycle.ca.gov/Laws/Rulemaking/](http://www.calrecycle.ca.gov/Laws/Rulemaking/).

INTERNET ACCESS

For more timely access to the rulemaking file, and in the interest of waste prevention, interested parties are encouraged to access CalRecycle’s Internet webpage for the rulemaking at [www.calrecycle.ca.gov/Laws/Rulemaking/](http://www.calrecycle.ca.gov/Laws/Rulemaking/). All rulemaking files can be downloaded directly from the website.

**GENERAL PUBLIC INTEREST**

**DEPARTMENT OF FISH AND WILDLIFE**

FISH AND GAME CODE SECTION 1653  
CONSISTENCY DETERMINATION  
REQUEST FOR SPARLING RANCH POND  
21 FISH BARRIER PROJECT

(TRACKING NUMBER:  
1653–2023–105–001–R4)  
SAN BENITO COUNTY

California Department of Fish and Wildlife (CDFW) received a Request to Approve on January 19, 2023, that South Bay Conservation Resources, LLC proposes to carry out a habitat restoration or enhancement project pursuant to Fish and Game Code section 1653. The proposed project involves the installation of a fish barrier at Pond 21 to exclude non-native fish species from California red legged frog and California tiger salamander habitat. The proposed project will be carried out on an un-named drainage of Pond 21, located at Sparling Ranch, San Benito County, California.

On April 26, 2022, the Central Coast Regional Water Quality Control Board (Regional Water Board) received a Notice of Intent (NOI) to comply with the terms of, and obtain coverage under, the General 401 Water Quality Certification Order for Small Habitat Restoration Projects (General 401 Order) for the Sparling Ranch Pond 21 Fish Barrier Project. The Regional Water Board determined that the Project, as described in the NOI, was categorically exempt

from California Environmental Quality Act (CEQA) review (section 15333 — Small Habitat Restoration Projects) and met the eligibility requirements for coverage under the General 401 Order. The Regional Water Board issued a Notice of Applicability (WDID Number 33522WQ02) for coverage under the General 401 Order on 9/13/2022.

South Bay Conservation Resources, LLC is requesting a determination that the project and associated documents are complete pursuant to Fish and Game Code section 1653 subdivision (d). If CDFW determines the project is complete, South Bay Resources, LLC will not be required to obtain an incidental take permit under Fish and Game Code section 2081 subdivision (b) or a Lake or Streambed Alteration Agreement under Fish and Game Code section 1605 for the proposed project.

In accordance with Fish and Game Code section 1653 subdivision (e), if CDFW determines during the review, based on substantial evidence, that the request is not complete, South Bay Resources, LLC will have the opportunity to submit under Fish and Game Code section 1652.

**DEPARTMENT OF FISH AND WILDLIFE**

HABITAT RESTORATION AND  
ENHANCEMENT ACT  
CONSISTENCY DETERMINATION  
NUMBER 1653–2022–103–001–R1

**Project:** Caltrans Cade and Portuguese Creek Fish Passage Project

**Location:** Siskiyou County, CA

**Applicant:** Catherine Low

**Notifier:** California Department of Transportation

**Background**

*Project Location:*

The Project has two locations along State Route 96 in Siskiyou County, California. Cade Creek is at highway postmile (PM) 43.5, near the town of Happy Camp, and Portuguese Creek (Location 2) is near the town of Seiad Valley at PM 57. Coordinates for Cade Creek bridge are 41.80755° North, 123.34813° West, and for Portuguese Creek Bridge are 41.85892° North, 123.24583° West.

*Project Description:*

Overview — The purpose of the Project is to improve fish and wildlife habitat by removing fish passage barriers at Cade Creek and Portuguese Creek. The Project is needed to address fish passage limitations and will replace two existing deteriorated

culverts with clear-span bridges. This action will give aquatic organisms unimpeded access to upstream habitat. Both Cade Creek and Portuguese Creek are perennial streams with riverine habitat, and the project sites are approximately 200 and 500 feet upstream (respectively) from the confluences with the Klamath River. The Project will benefit and improve habitat for coho salmon, Chinook salmon, steelhead, and other aquatic organisms. Approximately 2.58 miles of stream habitat in Cade Creek and approximately 2.78 miles of stream habitat in Portuguese Creek will become accessible to anadromous salmonids upon completion of work, and there will be a net gain of 171 linear feet (LF) of restored streambed and channel by removing the culverts.

Description of Work — Existing native streambed and bank material (boulders, cobble, gravel) will be utilized to rebuild and restore the streambed and channel upon culvert removal. This includes filling a scour hole at Portuguese Creek, creating complex refugia for salmonids, toe stabilization, and creation of a meandering stream channel. Work within the stream channels will include temporary in-stream clear water diversions and dewatering. Five permanent bioswales will be installed (two at Cade Creek, and three at Portuguese Creek) that will intercept roadway runoff from the new bridges and help filter pollutants out of the water before it enters the stream. Project construction will require vegetation removal, and the project has a comprehensive revegetation plan in place for both sites. Large rootwads may be utilized to help create complex instream habitat during the streambed reconstruction.

Excavation of approximately 14,345 cubic yards (cy) of soil will be required for this project and two disposal sites are available on private property for this purpose. A temporary clear-span detour bridge will be constructed on the westbound side of the highway approximately 50 feet from the centerline of the existing road at both locations and will remain in place while the new bridges are constructed. All footings and supports of the new bridges will be above the ordinary high water line. No new rock slope protection (RSP) will be utilized, but existing RSP shall be re-used to protect the new bridge footings. Staging areas for construction will occur on land within the Caltrans right-of-way, as well as on land managed by the Klamath National Forest.

*Project Size:*

The total area of ground disturbance associated with the Project is approximately 4.57 acres and 446 linear feet of streambank. The Applicant has included project size calculations that were used to determine the total size of the Project. The proposed Project complies with the General 401 Certification for Small Habitat Restoration Projects and associated categorical

exemption from the California Environmental Quality Act (Cal. Code Regs., title 14, § 15333).

Temporary Impacts to jurisdictional resources: 286 linear feet (0.09 acres total) of streambed, bank, and/or channel for culvert removal, and 60 linear feet (0.03 acres total) of riparian vegetation for construction access.

Permanent Impacts to jurisdictional resources: 100 linear feet (0.05 acres total) of riparian areas due to construction of the new bridges and associated activities.

*Project Associated Discharge:*

Discharge of materials into Waters of the State, as defined by Water Code section 13050 subdivision (e), resulting from the Project include those associated with the following: vegetation removal for site access and temporary bridge construction, culvert and material removal down to new streambed grade, reconstruction of the streambed upon culvert removal, and construction of new, free-span bridges over the waterways.

*Project Timeframes:*

Approximate Start date: August 1, 2023

Completion date: Fall/Winter 2025

Seasonal work windows: October 1–January 31:

Vegetation removal

June 15–October 15: Instream work

July 15–September 31: Pile driving (only necessary at Cade Creek)

Number of work days:

In-stream diversion, culvert removal, and restoration work are anticipated to take approximately 20 days at each location.

*Water Quality Certification Background:*

Because the Project's primary purpose is habitat restoration intended to improve the quality of waters in California, the North Coast Regional Water Quality Control Board (Regional Water Board) issued a Notice of Applicability (NOA) for Coverage under the State Water Resources Control Board General 401 Water Quality Certification Order for Small Habitat Restoration Projects SB12006GN (Order Waste Discharge Identification (WDID) Number 1A221123WNSI for the Project. The NOA describes the Project and requires the Applicant to comply with terms of the Order. Additionally, the Applicant has provided supplemental documents that set forth measures to avoid and minimize impacts to fish and wildlife.

*Receiving Waters:*

Cade Creek and Portuguese Creek, both tributaries of the Klamath River.

*Excavated Areas:*

Excavation Impact Information: Excavation of approximately 14,345 cubic yards of soil will be required for both culverts. The culvert at Cade Creek is approximately 85 linear feet with a 14-foot diameter. The culvert will be removed down to streambed level, along with all associated backfill material that was used at the time of installation. The culvert at Cade Creek is approximately 86 linear feet with an 8-foot diameter. The culvert will be removed down to streambed level, along with all associated backfill material that was used at the time of installation.

*Discharge volume:*

Discharge volumes were not calculated. Project related discharges are anticipated to be minor sediment releases upon stream rewatering as the new streambeds are established.

*Project location:*

The Project has two locations along State Route 96 in Siskiyou County, California. Cade Creek is at highway postmile 43.5, near the town of Happy Camp, and Portuguese Creek (Location 2) is near the town of Seiad Valley at PM 57. Coordinates for Cade Creek bridge are 41.80755° North, 123.34813° West, and for Portuguese Creek bridge are 41.85892° North, 123.24583° West.

Regional Water Board staff determined that the Project may proceed under the Order. Additionally, Regional Water Board staff determined that the Project, as described in the Notice of Intent (NOI) complies with the California Environmental Quality Act (Pub. Resources Code, § 21000 et seq.).

On December 28, 2022, the Director of the California Department of Fish and Wildlife (CDFW) received a notice from the Applicant requesting a determination pursuant to Fish and Game Code Section 1653 that the NOA, NOI, and related species protection measures are consistent with the Habitat Restoration and Enhancement Act (HREA) with respect to the Project.

Pursuant to Fish and Game Code section 1653 subdivision (c), CDFW filed an initial notice with the Office of Administrative Law on December 28, 2022, for publishing in the General Public Interest section of the California Regulatory Notice Register (Cal. Reg. Notice File Number Z-2022-1228-02) on January 13, 2023. Upon approval, CDFW will file a final notice pursuant to Fish and Game Code section 1653 subdivision (f).

**Determination**

CDFW has determined that the NOA, NOI, and related species protection measures are consistent with HREA as to the Project and meets the conditions set forth in Fish and Game Code section 1653 for authorizing the Project.

Specifically, CDFW finds that: (1) The Project purpose is voluntary habitat restoration and the Project is not required as mitigation; (2) the Project is not part of a regulatory permit for a non-habitat restoration or enhancement construction activity, a regulatory settlement, a regulatory enforcement action, or a court order; and (3) the Project meets the eligibility requirements of the State Water Resources Control Board's Order for Clean Water Act Section 401 General Water Quality Certification for Small Habitat Restoration Projects.

**Avoidance and Minimization Measures**

The avoidance and minimization measures for Project, as required by Fish and Game Code section 1653, subdivision (b)(4), were included in the application package. The avoidance and minimization measures are found in the addendum titled: *Attachment6\_SpeciesProtectionMeasures\_02\_IH590*

**Monitoring and Reporting**

As required by Fish and Game Code section 1653, subdivision (g), the Applicant included a description of the monitoring and evaluation objectives for the project, as well as a reporting outline for the data generated. Specific requirements of the revegetation plan are found in the supplemental document titled: *02-IH590\_Revegetation and Monitoring Proposal\_Updated November 2022*. Specific requirements of the water quality monitoring and reporting effort are found within the supplemental document titled: *Water Quality Monitoring Plan Template\_02\_IH590\_Cade and Portuguese Creek Fish Passage*. Specific requirements for additional monitoring are outlined in the supplemental document titled: *Attachment5\_NMFSBiologicalOpinion\_02\_IH590*

**Notice of Completion**

Coverage under the State Water Resources Control Board General 401 Water Quality Certification Order for Small Habitat Restoration Projects requires the Applicant to submit a Notice of Completion (NOC) no later than 30 days after the project has been completed. A complete NOC includes at a minimum:

- photographs with a descriptive title;
- date the photograph was taken;
- name of the photographic site;
- WDID number indicated above;
- success criteria for the Project.

The NOC shall demonstrate that the Applicant has carried out the Project in accordance with the Project description as provided in the Applicant's NOI. Applicant shall include the project name and WDID number with all future inquiries and document submittals. Pursuant to Fish and Game Code section 1653, subdivision (g), the Applicant shall submit the monitoring plan, monitoring report, and notice of completion to CDFW as required by the General Order.

Applicant shall submit documents electronically to: [Ali.Aghili@wildlife.ca.gov](mailto:Ali.Aghili@wildlife.ca.gov).

**Project Authorization**

Pursuant to Fish and Game Code section 1654, CDFW’s approval of a habitat restoration or enhancement project pursuant to section 1652 or 1653 shall be in lieu of any other permit, agreement, license, or other approval issued by the department, including, but not limited to, those issued pursuant to Chapter 6 (commencing with section 1600) and Chapter 10 (commencing with section 1900) of this Division and Chapter 1.5 (commencing with section 2050) of Division 3. Additionally, Applicant must adhere to all measures contained in the approved NOA and comply with other conditions described in the NOI.

If there are any substantive changes to the Project or if the Water Board amends or replaces the NOA, the Applicant shall be required to obtain a new consistency determination from CDFW. (See generally Fish & Game Code, § 1654, subdivision (c).)

**AVAILABILITY OF INDEX OF PRECEDENTIAL DECISIONS**

**DEPARTMENT OF SOCIAL SERVICES**

**NOTICE OF AVAILABILITY OF PRECEDENTIAL DECISIONS INDEX**

Notice is hereby given that the California Department of Social Services (CDSS) maintains an index of cases CDSS has designated as precedential decisions. The index is available on the Internet at <http://www.cdss.ca.gov/inforesources/Community-Care-Licensing/Decisions-Relied-Upon-as-Precedent>.

This notice is published pursuant to California Government Code section 11425.60, subdivision (c).

**SUMMARY OF REGULATORY ACTIONS**

**REGULATIONS FILED WITH THE SECRETARY OF STATE**

This Summary of Regulatory Actions lists regulations filed with the Secretary of State on the dates indicated. Copies of the regulations may be obtained by contacting the agency or from the Secretary of State, Archives, 1020 O Street, Sacramento, CA 95814, (916) 653-7715. Please have the agency name and the date filed (see below) when making a request.

Board of Equalization  
File # 2023-0112-01  
Exclusion from Change in Ownership – Intergenerational Transfers

This is the first re-adoption of emergency action number 2022-0707-01E, which modified the property tax reassessment exclusions for certain transfers between parents and their children or grandparents and their grandchildren.
