INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Summary of Existing Laws and Regulations

PRC Section 5090.01 et seq., also known as the Off–Highway Motor Vehicle Recreation Act of 2003, as amended, governs the Off–Highway Motor Vehicle Recreation (OHMVR) Division’s Grants and Cooperative Agreements with cities, counties, Districts, U.S. Forest Service, U.S. Bureau of Land Management, other Federal Agencies, State and Federally Recognized Native American Tribes, Nonprofit organizations, Educational Institutions, Certified Community Conservation Corps, and State agencies.

The Program is administered by the Division within the Department. The Program allows the State to assist eligible agencies and organizations to develop, maintain, expand and manage high–quality Off–Highway Vehicle (OHV) Recreation areas, roads, trails, and other Facilities, while responsibly maintaining the wildlife, soils, and habitat in a manner that will sustain long–term OHV Recreation. Assistance is provided in the form of Project–specific Grant funding. Grants are awarded through a competitive process where Applicants and their Projects are evaluated using objective criteria.

Effect of the Proposed Rulemaking

Generally, the proposed regulatory revisions will eliminate inconsistencies of terms within the regulations and make the regulatory language more concise, clear, and consistent by adopting, amending, and repealing Program regulations and various documents within the Appendix, incorporated by reference.

Specifically, the proposed regulatory revisions would:

Amend CCR Section 4970.03(a)(3)–4970.06.1(c)

The proposed regulations correct words which are currently in title case. The regulations do not define the terms and, accordingly, they should not be in title case.

Amend CCR Section 4970.06.1(c)(2)(A)–4970.06.1(c)(3)(A)(3)

The proposed regulations increase Applicant response time to respond to OHMVR Division requests for additional California Environmental Quality Act–related information for Projects.

Amend CCR Section 4970.06.2(c)(1)–4970.06.3(g)(2)

The proposed regulations increase Applicant response time to respond to OHMVR Division requests for additional Habitat Management Program and Soil Conservation Plan–related information.

Amend CCR Section 4970.10.4(d)(1)

The proposed regulation fixes a typographical error.

Amend Regulations Appendix ERDS Form Item 4

The proposed regulation addresses a duplicative word that can be misinterpreted.

Amend Regulations Appendix ERDS Form Item 6

The proposed regulation addresses erroneous language and adds an additional requirement for Applicants to address when filling out Item 6. This added requirement would help ensure responses to Item 6 are complete and would improve overall efficiency by reducing the need for OHMVR Division staff to ask for clarification.

Amend Regulations Appendix ERDS Form Item 7

The proposed regulation adds clarifying language to help guide Applicants’ responses to Item 7.

Amend Regulation Appendix Habitat Management Program Part 1 Form

The proposed regulation clarifies and simplifies the questions asked of Applicants that determine if Applicants need to have a Habitat Management Program and/or a Soil Conservation Plan at Final Application. The proposed puts the questions in one form, as opposed to two separate forms, and adjusts language to improve both clarity of the requirements and questions being asked while improving efficiency for Applicants and OHMVR Division staff.

Amend Regulations Appendix Habitat Management Program Part 2

The proposed regulation amends language to improve consistency throughout the HMP Part 2 Form, removes antiquated terminology and requirements, aligns the HMP Part 2 Form with statute and regulations, and adds new language to ensure the appropriately qualified personnel prepare and perform the monitoring for the HMP.

Remove Soil Conservation Plan Part 1

The proposed regulation removes the Soil Conservation Plan Part 1 as currently written and combines it with HMP Part 1 to address both environmental requirements in one location. The proposed improves clarity and efficiency of the program.

Comparable Federal Regulations

The proposed amendments do not duplicate or conflict with federal regulations or statutes.

Policy Statement Overview and Anticipated Benefits of the Proposed Rulemaking

The overall objective of the proposed action is to improve the Program’s regulatory language, documents incorporated by reference, and ensure public funds are being spent wisely and within the State’s best interest in supporting motorized recreation. These proposals, based on Division experience implementing the Program, will also reduce confusion for Applicants and Grantees and make the regulatory language concise, clear, and consistent by adopting, amending, and repealing Program regulations and various documents within the Appendix, incorporated by reference.

Determination of Inconsistency/Incompatibility with Existing Regulations

After conducting an evaluation for any regulations related to this area, the Department has found that there are no other regulations concerning grants that supports the planning, acquisition, development, maintenance, administration, operation, enforcement, restoration, and conservation of trails, trailheads, areas, and other facilities associated with the use of off-highway motor vehicles, and programs involving off-highway motor vehicle safety or education. Therefore, the Department has determined that the proposed regulations are neither inconsistent nor incompatible with existing state regulations.

WRITTEN COMMENT PERIOD

Written comments relevant to the action proposed, including those sent by mail, facsimile, or email to the addresses listed under “Contact Person” in this Notice, must be *received* by the Board at its office no later than **Tuesday, August 6, 2024**.

AUTHORITY AND REFERENCE

Pursuant to the authority vested by sections 3702.5 and 3722 of the Business and Professions Code (B&P), and to implement, interpret, or make specific B&P sections 2860, 3701, 3702, 3702.5, 3702.7, 3703, and 3765, the Board is considering addition of section 1399.365 of Division 13.6, Title 16 of the California Code of Regulations (CCR) as described herein.

INFORMATIVE DIGEST/POLICY
STATEMENT OVERVIEW

The Board enforces and administers the Respiratory Care Practice Act at B&P sections 3700–3779 and oversees approximately 24,000 licensed respiratory care practitioners (RCPs) and RCP applicants.

Senate Bill (SB) 1436 (Chapter 624, Statutes of 2022) became effective January 1, 2023, amending B&P section 2860 of the Vocational Nursing Practice Act to state licensed vocational nurses (LVNs) may not pro-

vide respiratory care services and treatment, except LVNs who have received training and who demonstrate competency satisfactory to their employer may, when directed by a physician and surgeon, perform respiratory tasks and services expressly identified by the Board pursuant to subdivision (a) of Section 3702.5 of the B&P.

Existing law at B&P section 3702.5(a) grants the Board authority to adopt regulations to further define, interpret, or identify basic respiratory tasks and services that do not require a respiratory assessment and only require manual, technical skills, or data collection. The Board currently has no regulations that further define, interpret, or identify basic respiratory tasks and services.

Article 6, Division 13.6, Title 16 of the CCR is titled “Scope of Practice” providing the appropriate placement of section 1399.365, the subject of this proposal.

This regulatory proposal will adopt 16 CCR 1399.365, which lists the broad categories of basic respiratory tasks and services. This new section identifies the following seven basic respiratory tasks and services that do not require a respiratory assessment and only require manual, technical skills, or data collection:

- 1) Data collection.
- 2) Application and monitoring of the pulse oximeter.
- 3) Medication administration by aerosol that does not require manipulation of an invasive or non-invasive mechanical ventilator.
- 4) Heat moisture exchanger (HME) and oxygen tank replacement for patients who are using non-invasive mechanical ventilation.
- 5) Hygiene care including replacement of tracheostomy tie and gauze and cleaning of the stoma site.
- 6) Use of a manual resuscitation device and other cardio-pulmonary resuscitation technical skills (basic life support level) in the event of an emergency.
- 7) Appropriate documentation of care provided.

Anticipated Benefits of the Proposed Regulation

This regulatory proposal benefits the health and welfare of California residents by further defining, interpreting, and identifying basic respiratory tasks and services that may be safely performed by LVNs or other properly trained health care personnel consistent with the underlying statutory requirements. This will help ensure the most up-to-date standards and practices are met and will help protect patients in need of respiratory care.

The Board’s highest priority is protection of the public in exercising its licensing, regulatory, and disciplinary functions. The Board is mandated to protect the public from the unauthorized and unqualified practice of respiratory care and from unprofessional

conduct by persons licensed to practice respiratory care. To continue performing these functions in support of its mandate, the Board must ensure only qualified personnel are providing respiratory care beyond tasks and services that only require manual, technical skills, or data collection. In addition, all stakeholders (*i.e.*, health care practitioners, facilities, employers, and patients) benefit by having a clear and precise understanding of which respiratory tasks and services may be performed by LVNs. Providing such clarity will overall enhance the timely delivery of health care monitoring and attention by maximizing resources of the health care teams to perform duties and functions at their skill levels without interruption to health care delivery or planning or reducing the quality of care delivered.

Evaluation of Consistency and Compatibility with Existing State Regulations

During the process of developing this regulatory proposal, the Board conducted a search of any similar regulations on this topic and concluded that these regulations are neither inconsistent nor incompatible with existing state regulations.

INCORPORATION BY REFERENCE

This proposal does not include any documents incorporated by reference.

DISCLOSURES REGARDING THIS PROPOSED ACTION

FISCAL IMPACT ESTIMATES

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: There is no fiscal impact to the State in the form of federal funding or any cost or savings to any state agency. The proposed regulation identifies basic respiratory tasks and services. The Board does not anticipate an increase in workload or costs resulting from the proposed regulations, and any workload and costs of implementation are a result of current law.

Nondiscretionary Costs/Savings to Local Agencies: None.

Cost to Any Local Agency or School District for Which Government Code Sections 17500–17630 Require Reimbursement: None.

Mandate Imposed on Local Agencies or School Districts: None.

Significant Effect on Housing Costs (and, if applicable, including any estimated costs of compliance or potential benefits of a building standard): None.

BUSINESS IMPACT ESTIMATES

Business Impact

The Board has made an initial determination that the proposed regulatory action would have no significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states.

Cost Impact on Representative Private Person or Business

The Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

RESULTS OF ECONOMIC IMPACT ASSESSMENT/ANALYSIS

Impact on Jobs/Businesses

The Board has determined that this regulatory proposal will not have any impact on the creation of jobs or new businesses or the elimination of jobs or existing businesses or the expansion of businesses in the State of California.

Benefits of Regulation

The Board determined that this regulatory proposal will have the following benefits to health and welfare of California residents, worker safety, and the state's environment: This proposal will benefit California residents' health, safety, and welfare because it will ensure LVNs are only performing those basic respiratory tasks and services for which they are trained and competency tested to perform. Patients requiring more advanced levels of respiratory care beyond basic tasks and services will receive such care from qualified health care personnel.

Business Reporting Requirements

The regulatory action does not require businesses to file a report with the Board.

Effect on Small Business

The Board determined the proposed regulation will not affect small businesses operating in the state because existing law provides that only respiratory care practitioners or other health care personnel may practice respiratory care within the scope of practice of each profession.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the Board must determine that no reasonable alternative it considered to the regulation or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed,

would be as effective and less burdensome to affected private persons than the proposal described in this Notice, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

Any interested person may submit comments to the Board in writing relevant to the above determinations at 3750 Rosin Court, Suite 100, Sacramento, CA 95834 during the written comment period or at the scheduled hearing.

AVAILABILITY OF STATEMENT OF REASONS AND RULEMAKING FILE

This material is contained in the rulemaking file and is available for public inspection upon request to the Contact Persons named in this Notice.
