INFORMATIVE DIGEST

A. *Informative Digest*

The regulations in Article 2 were originally promulgated in the late 1970s. Since the adoption of the regulations, nearly each provision of those regulations has been codified in the California Elections Code, are no

longer applicable, or are now in other provisions of the California Code of Regulations.

The regulations in Article 4 were also originally promulgated in the late 1970s. Since the adoption of the permanent regulations, the provisions of the Elections Code have been changed, rendering both sections of Article 4 unnecessary.

The purpose of this proposed regulatory action is to remove unnecessary regulations that are no longer in use. In addition, the few existing provisions that must remain will be consolidated into one section. This new section covers items that have not been codified or placed into another section of the California Code of Regulations, and also proposes additional necessary provisions.

Elections Code section 506 (now Section 2157 after a recodification in 1994) was amended by Chapter 1275 of the Statutes of 1976 to require the Secretary of State to promulgate regulations regarding the paper voter registration affidavit. The requirement in Section 2157 for the Secretary of State to promulgate regulations relating to the design of the voter registration affidavit remains in force, but only those few provisions are currently necessary to include in the regulations.

The purpose of these regulations is as follows:

1. Repeal existing regulations that have been codified, are no longer applicable, or have been moved to another section of the California Code of Regulations.
2. Provide current dimensions of the paper voter registration affidavits.
3. Require that the paper voter registration affidavit contain an affidavit number.
4. Provide for the printing of monolingual voter registration affidavits in English.
5. Provide for the printing of bilingual voter registration affidavits in English and all languages required by Section 203 of the federal Voting Rights Act of 1965 (52 U.S.C. Sec. 10503).

These revised regulations will provide clarity to voters and the general public regarding the printing of voter registration affidavits. Nearly all of the existing regulations have been codified, are no longer required, or have been placed into another section of the California Code of Regulations. The purpose of these regulations is to avoid confusion with existing statutes and regulations and provide clarity regarding current responsibilities of the Secretary of State's office for paper voter registration affidavits that are not currently found in statute or any other regulation. These regulations will ultimately benefit California residents because the Secretary of State's requirements for paper voter registration affidavits will be updated and clear.

B. Consistency/Compatibility with Existing State Regulations

After conducting an evaluation of regulations in this area, the SOS has determined that these are the only regulations related to paper voter registration affidavits. Therefore, the proposed regulations are neither inconsistent nor incompatible with existing state regulations.

C. Documents Incorporated by Reference: None.

D. Documents Relied Upon in Preparing the Regulations: None.

DISCLOSURES REGARDING THE PROPOSED REGULATIONS

The SOS has made the following initial determinations:

Fiscal Impact on Public Agencies Including Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.

Nondiscretionary Costs/Savings to Local Agencies: None.

Mandate on Local Agencies and School Districts: None.

Cost to Any Local Agency or School District for Which Government Code Sections 17500–17630 Require Reimbursement: None.

Business Impact: The SOS has made an initial determination that the proposed regulatory action will have no significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

Cost Impact on Representative Private Person or Business: The Secretary of State is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

Significant Effect on Housing Costs: None.

Effect on Small Business: These regulations will have no effect on small businesses. These regulations pertain to the paper voter registration affidavit that is currently provided by the Secretary of State’s office.

RESULTS OF THE ECONOMIC IMPACT ASSESSMENT

The SOS has determined that the proposed regulations are (1) unlikely to create or eliminate any jobs in California, (2) unlikely to create or eliminate any California businesses, and (3) unlikely to result in the expansion of businesses currently doing business within California. These regulations pertain to paper voter registration affidavits which are provided by the Secretary of State’s office. These regulations do not

significantly change existing business practices such that jobs or businesses would be created or eliminated.

Benefits of the Proposed Regulations: The benefits of the regulation to the health and welfare of California residents lies in the fact that these regulations will provide clarity to voters and the general public regarding the printing of voter registration affidavits. Nearly all of the existing regulations have been codified, are no longer required, or have been placed into another section of the California Code of Regulations. The purpose of these regulations is to avoid confusion with existing statutes and regulations and provide clarity regarding responsibilities of the Secretary of State’s office for paper voter registration affidavits that are not currently found in statute or any other regulation. These regulations will ultimately benefit California residents because the Secretary of State’s requirements for paper voter registration affidavits will be updated and clear.

The regulations do not provide any benefits for worker safety or the state’s environment.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code section 11346.5, subdivision (a)(13), the SOS must determine that no reasonable alternative it considered or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

Any interested person may present statements or arguments with respect to alternatives or to the above determinations.

INITIAL STATEMENT OF REASONS, THE TEXT OF PROPOSAL AND THE RULEMAKING FILE

The SOS has prepared an Initial Statement of the reasons for the proposed action and has available all the information upon which the proposal is based. The Initial Statement of Reasons is available on the SOS’s website.

Email: michelle.lagrandeur@spb.ca.gov

The written comment period closes on August 12, 2024. Only written comments received by that time shall be reviewed and considered by the Board before it adopts, amends, or repeals a regulation.

AUTHORITY AND REFERENCE

The Board proposes to amend sections 258, 260.1, and 261.1 of Title 2, Chapter 1 of the California Code of Regulations pursuant to the authority vested in it by the California Constitution, article VII, section 3, and Government Code (Gov. Code) sections 18502 and 18701. The proposed regulations will implement, interpret, and make specific the provisions of the California Constitution, article 7, section 3, and Government Code sections 18935 and 19050.

**INFORMATIVE DIGEST/POLICY
STATEMENT OVERVIEW**

The Board is a constitutional body responsible for enforcing California’s civil service statutes. (Cal. Const., article VII, §§ 1, subdivision (b), and 3; Gov. Code, § 18660.) In addition, the Board, by majority vote of all its members, prescribes probationary periods and classifications, adopts other rules authorized by statute, and reviews disciplinary actions imposed against state employees. (*Ibid.*)

Regulations adopted by the Board are exempt from the Administrative Procedure Act, except as expressly specified. (Gov. Code, §§ 18211, 18215, & 18216.)

The amendments update and align current regulations with recent regulatory changes adopted by the Board.

In reviewing other state regulations, the Board found that the instant regulatory proposal is consistent and compatible with existing state regulations.

FISCAL IMPACT ON PUBLIC AGENCIES:

- Mandate on local agencies and school districts: None.
- Cost to any local agency or school district that must be reimbursed in accordance with Government Code sections 17500 through 17630: None.
- Cost or savings to any State agency: None.
- Other nondiscretionary cost or savings imposed on local agencies: None.
- Cost or savings in federal funding to the State: None.

**SIGNIFICANT EFFECT ON
HOUSING COSTS**

None.

ECONOMIC IMPACT ON BUSINESS

- Significant, statewide adverse economic impact directly affecting businesses including the ability of California businesses to compete with businesses in other states: None.
- Effect on small business: None. The proposed regulations only set standards related to temporary assignments. Accordingly, it has been determined that the adoption of the proposed regulations would not affect small businesses in any way.

**COST IMPACT ON A REPRESENTATIVE
PRIVATE PERSON OR BUSINESS**

The agency is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action since the regulatory change only impacts the temporary assignments within state civil service.

**RESULTS OF ECONOMIC
IMPACT ASSESSMENT**

Adoption of these regulations will not:

1. Create or eliminate jobs within California.
2. Create new businesses or eliminate existing businesses within California.
3. Affect the expansion of businesses currently doing business within California.
4. Affect worker safety or the state’s environment.

The adoption of these regulations, however, will have a positive impact on the general health and welfare of California residents in that the benefits of this regulatory action create a fair, equitable, and consistent process for the civil service selection process.

CONSIDERATION OF ALTERNATIVES

The Board must determine that no reasonable alternatives it has considered or that have been otherwise identified and brought to the attention of the Board would be more effective in carrying out the purposes for which the instant action is proposed, or would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

TITLE 13. HIGHWAY PATROL

ROUTES FOR TRANSPORTATION OF RADIOACTIVE MATERIALS (CHP–R–2023–06201)

The California Highway Patrol (CHP) proposes to amend Title 13 of the California Code of Regulations (CCR) regarding the designated routes for the transportation of highway route controlled quantity (HRCQ) shipments of radioactive materials (RAM).

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Pursuant to California Vehicle Code (CVC), Division 14.5, Section 33000, the CHP shall adopt regulations specifying the routes to be used in the through transportation of HRCQ RAM. The proposed changes are developed to enhance public health and safety by adding 103.0 miles of State Route (SR)–58 between Interstate (I)–15 and SR–223, and 30.1 miles of SR–223 between SR–58 and I–5 into the designated routes to be specified in Title 13, CCR, Section 1159, providing a more direct access between Barstow and Lost Hills for commercial vehicles transporting HRCQ RAM. The proposed additional routes will present a better network of designated routes and reduce the potential risks associated with transporting HRCQ RAM.

During the process of developing these regulation amendments, the CHP has conducted a search of any similar regulations on this topic and has concluded that these regulations are neither inconsistent, nor incompatible, with existing state regulations. For the proposed regulation amendments, the CHP consulted with and received concurrence from the State Fire Marshal, California Department of Public

Health, California Department of Transportation, San Bernardino County Fire Protection District, Kern County Fire Department, Barstow Fire Protection District, Bakersfield Fire Department, Southern California Association of Governments, California licensed HRCQ RAM manufacturers and carriers, and CHP's Inland Division, Southern Division, and Central Division. After the proposed regulations are adopted, they will be provided to the United States Department of Transportation, Federal Motor Carrier Safety Administration, to update the National Hazardous Materials Route Registry. No opposition is anticipated.

The proposed changes implement existing statute by updating the safe routes designated for carriers transporting HRCQ RAM. Consistent with the legislative intent and the purpose of existing regulations, the proposed regulatory action will continue to provide a nonmonetary benefit by protecting the health, safety, and welfare of California's residents, workers, and environment.

ADOPTION OF PROPOSED REGULATIONS

After consideration of public comments, the CHP may adopt the proposal substantially as set forth without further notice. If the proposal is modified prior to adoption and the change is not solely grammatical or substantive in nature, the full text of the resulting regulation, with the changes clearly indicated, will be made available to the public for at least 15 days prior to the date of adoption.

FISCAL EFFECT AND RESULTS OF THE ECONOMIC IMPACT ANALYSIS

The CHP has made an initial determination that this proposed regulatory action: (1) will have no effect on housing costs; (2) will not impose any new mandate upon local agencies or school districts; (3) will involve no nondiscretionary cost or savings to any local agency, no cost to any local agency or school district for which Government Code (GC) Sections 17500–17630 require reimbursement, no cost or savings to any state agency, nor costs or savings in federal funding to the state; (4) will neither create nor eliminate jobs in the State of California, nor result in the elimination of existing businesses, or create or expand businesses in the State of California; and (5) will not have a significant statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states.

Benefits of the Proposed Action: The proposed regulation updating designated routes for carriers transporting HRCQ RAM will continue to provide benefits, including the nonmonetary benefit of protecting

the public’s health and improving safety for residents, workers, and the environment by providing a regulatory basis for enforcement efforts as they relate to safety compliance ratings.

The regulated community is encouraged to respond during the comment period of this regulatory process if significant impacts are identified.

COST IMPACTS ON REPRESENTATIVE PRIVATE PERSONS OR BUSINESSES

The CHP is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

EFFECT ON SMALL BUSINESSES

The CHP has determined that the proposed regulatory action will not affect small businesses. The action is intended to update the designated routes for commercial vehicles transporting HRCQ RAM on the highways. As a result, no small business will be affected by the update.

ALTERNATIVES

In accordance with Section 11346.5(a)(13) GC, the CHP must determine that no reasonable alternative considered by the CHP, or otherwise identified and brought to the attention of the CHP, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law. The CHP invites interested parties to present statements or arguments with respect to alternatives to the proposed regulations during the written comment period.

AUTHORITY

This regulatory action is being taken pursuant to Section 33000, CVC.

REFERENCE

This action implements, interprets, or makes specific Section 33000, CVC.

a. *Summary of Existing Laws and Effect of Proposed Regulations*

Legislative goals of the Act are found in HSC Section 127370 including the following statements from subdivisions (a)–(d): “The COVID–19 health emergency has thrown into sharp relief longstanding health inequities along racial, ethnic, and socioeconomic lines. Black, Hispanic, and Indigenous people have been disproportionately affected during the pandemic; for example, the age–adjusted mortality rate among Black people with COVID–19 is more than three times as high as that of Whites. Disparities in access to care and quality of care contribute to racial health disparities. The disparate impact of the pandemic has highlighted the tiered nature of the current health care system, a structure that significantly impacts the quality of care patients receive along racial, ethnic, and socioeconomic lines. Reporting on the racially disproportionate impact of COVID–19 has called attention to the need for further data on racial and ethnic disparities in health care. Data currently reported by California hospitals that could be used to analyze access to and quality of care by age, sex, race, ethnicity, language, disability status, sexual orientation, gender identity, and socioeconomic status is not available to consumers or the general public.”

Specifically, the Act establishes a new program that requires hospitals and hospital systems to file an annual equity report with HCAI and to post a link to the reports on the main page of their internet websites. While HCAI currently collects healthcare facility–level reports for financial and utilization data and patient–level data from hospitals, these new annual reports are required to include data related to patient access, quality, and outcomes by race, age, ethnicity,

language, disability status, sexual orientation, gender identity, and expected payor. The equity reports are due annually by September 30 with the first report due September 30, 2025. The reports must also include a plan to prioritize and address disparities for vulnerable populations identified in the data. The Act authorizes HCAI to impose a fine up to \$5,000 on hospitals and hospital systems for failure to adopt, update, or submit a health equity report consistent with the requirements.

The Department is proposing this regulatory action to implement, interpret and make specific Article 3 (HSC, Section 127370–127376) of Chapter 2, Part 2, Division 107 of the HSC. The regulations being proposed in this rulemaking action aim to standardize the Department’s requirements for hospital report submissions regarding various aspects, including submission process, measure definition, and stratification requirements, establishing deliverable timelines, specifying deadline extensions and outlining assessment of penalties for non–compliance.

Specifically, the new regulations address the following:

- Under HSC Section 127371, Section 95300 is added to provide definitions to terms used in Article 1 through 3 of the proposed regulations, ensuring that the program regulations that follow meet the clarity requirement and to provide the specificity necessary for compliance with the regulations and implementation of the reporting requirements mandated by Article 2.
- Proposed regulation Section 95301 outlines the stratification categories as required by statute and specifies that all measures shall be stratified as specified to the extent the data is available, as determined by each hospital and hospital system. Reports shall include the numerator, denominator, and rate of each measure broken down by each stratification category outlined below.
 1. Race/Ethnicity
 2. Age
 3. Sex Assigned at Birth
 4. Expected Payor
 5. Preferred Language
 6. Disability Status
 7. Sexual Orientation
 8. Gender Identity

The Measures Submission Guide provides further detailed stratification groupings and is incorporated into the regulations by reference.

- Section 95302 is added to require each hospital and hospital system to designate a primary and secondary contact persons for the purpose of receiving compliance and informational communi-

cations regarding equity reports. Contacts shall register on the Department’s website to provide information about the hospital or hospital system, report any designee changes within 15 days after any change, and authorize users in the online report submission portal.

- Article 2, Section 95303 is added to specify requirements of hospitals to submit their equity report and the data elements required from each facility type, including general acute care hospitals, children’s hospitals, acute psychiatric hospitals, and special hospitals. The section outlines the required elements that all hospitals will need to report including the numerator and denominator of each measure broken down by stratification category, to the extent available and consistent with the California Health and Human Services Agency’s “Data De-Identification Guidelines (DDG),” dated September 23, 2016.
- Section 95304 is added to outline the required elements that all hospital systems will need to report including the numerator and denominator of each measure broken down by stratification category, to the extent available and consistent with the California Health and Human Services Agency’s “Data De-Identification Guidelines (DDG),” dated September 23, 2016, and aggregated by facility type to encompass all hospitals within the hospital system. The hospital systems are required to report on all core quality measures as outlined in Section 95303, and all structural measures except for the County Medican Services (CMS) Hospital Commitment to Health Equity Structural (HCHE) Measure. The hospital system equity report is not a substitute for an individual hospital equity report.
- Section 95305 specifies the requirements of the equity report Supplemental Document, which is an optional additional filing hospitals can submit to supplement the information reported in the equity report required by Sections 95303 and 95304.
- Section 95306 specifies requirements for the reporting period and report due date.
- Section 95307 is added to provide that a hospital or hospital system may request, and the Department may grant, a single 60-day extension per report period to file an equity report, when to file the extension request, and the Department responding to an extension request via email.
- Section 95308 is added to specify the required method to submit reports filed pursuant to Sections 95303 or 95304 and references the Department’s Format and File Specification for Submission of the Equity Report Version 1.0, dated April 15, 2024, which is incorporated into

the regulations by reference and further specifies the requirements for uploading comma separated value (.csv) files.

- Article 3, Section 95309 is added to specify fines for late filings of a report as required in Section 95303 or Section 95304 by a due date established pursuant to Section 95306.
- Section 95310 is added to specify how hospitals will be notified when fines have been accrued, and how the fine amount will be calculated pursuant to Section 95309.
- Section 95311 is added to specify the requirements of a hospital or hospital system that has received notice of an accrued fine that may appeal the fine assessment by requesting a hearing.
- Section 95312 is added to provide contact information for the Department’s Hearing Officer.
- Section 95313 is added to specify the prehearing provisions for all parties.
- Section 95314 is added to specify the procedures by which the hearing will be conducted to ensure hearings are fair and consistent.
- Section 95315 is added to specify that the Department shall notify the Hearing Officer if a settlement is reached prior to the hearing.
- Section 95316 is added to define and provide notice of the process for adoption or rejection of the proposed hearing decision by the Director of the Department.

b. *Objectives and Anticipated Benefits of Proposed Regulations*

The proposed regulations are necessary to achieve standardization, transparency, and the ability to easily compare information presented in hospitals’ equity reports. The purpose of these regulations is to implement, interpret, and make specific the hospital equity reporting requirements and health equity plan to prioritize and address disparities for vulnerable populations identified in the data, based on the recommendations of the Hospital Equity Measures Advisory Committee. The benefits of the regulations are to achieve the goals of the Act by identifying disparities to detect areas where certain groups or populations face inequality in access, treatment options, and health outcomes.

The proposed regulations aim to standardize reporting requirements of structural and quality measures, which includes the method of submission. Specifying the submission method in these proposed regulations will greatly improve the efficiency of reporting by hospitals and hospital systems and allow for comparability across hospitals. The proposed regulations also aim to include clear stratification categories to enable reliable grouping and analysis of patient populations

across hospitals. Finally, the proposed regulations also aim to specify the inclusion of hospital contact information and registration, allowing for efficient communication channels, and establish firm timetables for deliverables, paired with protocols for deadline extensions and fines for non-compliance to ensure timely reporting.

c. *Determination of Inconsistency/Incompatibility with Existing State Regulations*

HCAI did an evaluation for any related state regulations and has found that these are the only regulations concerning hospital reporting of equity measures. Therefore, the proposed regulations are neither inconsistent nor incompatible with existing state regulations.

d. *Documents Incorporated by Reference*

The following are documents HCAI intends to incorporate by reference through these proposed regulations:

- The Department’s Measures Submission Guide, version 1.0, dated April 15, 2024.
- The California Health and Human Services Agency’s “Data De-Identification Guidelines (DDG),” version 1.0, dated September 23, 2016.
- Department’s Format and File Specification for Submission of the Hospital Equity Report Version 1.0, dated April 15, 2024.

V. DISCLOSURES REGARDING THE PROPOSED ACTION

The Department has made the following initial determinations:

- A. Mandate on local agencies and school districts: None.
- B. Cost or savings to any state agency: None.
- C. Cost to any local agency or school district which must be reimbursed in accordance with Government Code Sections 17500–17630: None.
- D. Other nondiscretionary cost or savings imposed on local agencies: None.
- E. Cost or savings in federal funding to the state: None.
- F. Cost impact on a representative person or business: New regulations are required to implement Chapter 2, Article 3. Medical Equity Disclosure Act (Health and Safety Code Section 127370–127376), hospitals or hospital systems may incur up to \$1,440.77 per year to upload the statutorily required hospital equity reports and provide required information to the online reporting system prescribed by these proposed regulations.
- G. Statewide adverse economic impact directly affecting businesses and individuals: The Depart-

ment has made an initial determination that the regulations will not have a significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states.

- H. Significant effect on housing costs: None.
- I. Cost impact on small businesses: This proposed action does not affect small business because no entities regulated under the proposed action are small businesses.

VI. STATEMENT OF THE RESULTS OF THE ECONOMIC IMPACT ANALYSIS (EIA)

New regulations are required to implement the Act. HCAI has narrowly tailored the proposed regulations to implement the statutory requirements for the hospital equity reporting requirements. The proposed regulations impose only minor additional reporting or other requirements on any businesses, organizations, or individuals.

The proposed regulations specify the standardization of reporting requirements for structural and quality measures, standardizing key definitions and stratification categories, specifying hospital and hospital system contact information and registration, and establishing firm timetables for deliverables. Furthermore, the regulations define the process for report submission, extension requests, and appeals procedures regarding fines related to non-submission of reports.

Therefore, the Department concludes that:

- (1) This regulatory action will not create jobs within the state;
- (2) This regulatory action will not eliminate jobs within the state;
- (3) This regulatory action will not create new businesses;
- (4) This regulatory action will not eliminate existing businesses;
- (5) This regulatory action will not expand businesses currently doing business within the state;
- (6) This regulatory action will not impact workers’ safety;
- (7) This regulatory action will not impact the state’s environment.
- (8) As mentioned above, the information collected in these equity reports will help address health care disparities among different population sectors and communities, which would ultimately benefit the health and welfare of California residents.

VII. CONSIDERATION OF ALTERNATIVES

The Department must determine that no reasonable alternative it considered or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

The Department invites interested persons to present statements or arguments with respect to alternatives to the proposed regulations during the written comment period.

SAN MATEO COUNTY

California Department of Fish and Wildlife (CDFW) received a Request to Approve on June 10, 2024, that the San Mateo Resource Conservation District (District) proposes to carry out a habitat restoration or enhancement project pursuant to Fish and Game Code section 1653. The proposed project involves installing 8 large wood structures in San Gregorio Creek to enhance habitat for coho salmon, steelhead, and Pacific lamprey.

The proposed project will be carried out on San Gregorio Creek, located at 2320 La Honda Road, San Gregorio, San Mateo County, California.

On March 22, 2024, the San Francisco Bay Regional Water Quality Control Board (Regional Water Board)

received a Notice of Intent (NOI) to comply with the terms of, and obtain coverage under, the General 401 Water Quality Certification Order for Small Habitat Restoration Projects (General 401 Order) for the San Gregorio Creek Habitat Enhancement Project Phase 3. The Regional Water Board determined that the Project, as described in the NOI, was categorically exempt from California Environmental Quality Act (CEQA) review (section 15333 — Small Habitat Restoration Projects) and met the eligibility requirements for coverage under the General 401 Order. The Regional Water Board issued a Notice of Applicability (WDID Number 2CW456336) for coverage under the General 401 Order on 4/23/2024.

The District is requesting a determination that the project and associated documents are complete pursuant to Fish and Game Code section 1653 subdivision (d). If CDFW determines the project is complete, the District will not be required to obtain an incidental take permit under Fish and Game Code section 2081 subdivision (b) or a Lake or Streambed Alteration Agreement under Fish and Game Code section 1605 for the proposed project.

In accordance with Fish and Game Code section 1653 subdivision (e), if CDFW determines during the review, based on substantial evidence, that the request is not complete, the District will have the opportunity to submit under Fish and Game Code section 1652.
