## Projected Adoption by Your Agency Date:

October 24, 2025

## Projected To OAL for Review Date:

November 24, 2025

## **Summary:**

Subsequent to OAL's approval of the ACF regulation, the Legislature enacted AB 1594 which directs CARB to amend the ACF regulation and make numerous changes to increase flexibility available to public agency utilities which includes defining a "public agency utility" and allowing a public agency utility to submit a comprehensive usage report when applying for a daily usage exemption. On August 26, 2024, OAL approved these two changes without Board action because they were non-discretionary changes and qualified under Cal. Code Regs., tit.1, §§ 100(a)(5) and (a)(6). In addition, AB 1594 also requires CARB to define a "traditional utility-specialized vehicle" and to consult with public agency utilities to determine what criteria can be used to determine the end-of-life for traditional utility-specialized vehicles without regard to the model year

of the vehicle being replaced. These two legislatively mandated amendments are included in staff's proposal along with other minor clarifying changes.

## Projected Adoption by Your Agency Date:

Space and water heating contribute significantly to building-related GHG and criteria pollutant emissions. The proposed Zero-Emission Space and Water Heater Standards are part of California's climate strategy and commitment to clean air outlined in the 2022

Scoping Plan and the 2022 State Strategy for the State Implementation Plan to achieve significant emission reductions from buildings.

Report on the Status of all Uncompleted Rulemaking Described on Previous Calendars: None.

**Summary:** The California Code of Regulations (CCRs) listed above have been identified by the CalHR as being directly affected by the implementation of the new "uniform payroll cycle". This shift, introduced through GC § 19824, established in 2023, represents a significant modernization of payroll practices for State civil service employees.

This proposed rulemaking package will be in addition to previously submitted CSPS regulatory package Z2024-0801-02, which laid the groundwork for updating payroll regulations in preparation for the transition. Building upon those foundational changes, this package will address the remaining CCR sections impacted by the move to a biweekly payroll frequency and ensure alignment with the operational rollout of the California State Payroll System (CSPS).

Under the new system, payroll frequency will transition from the long-standing monthly payroll cycle to a more streamlined biweekly payroll cycle. This change is a key component of the CSPS implementation, a transformative initiative aimed at improving efficiency, accuracy, and timeliness in payroll processing for State employees.

Report on the Status of all Uncompleted Rulemaking Described on Previous Calendars: CalHR has submitted similar changes in the past; however, they were applicable to employees excluded from, or otherwise not subject to, the Ralph C. Dills Act. The proposed changes to the regulations above will impact represented employees. Most of the represented travel regulations became effective over two decades ago and have not been updated to remove archaic language (vouchers, telegrams, etc.) or reflect current rates (Federal Standard Mileage Rate, etc.) and/or policy (defines "incidentals" instead of referring to current Internal Revenue Service definition, etc.) CalHR proposes to (1) remove archaic language, (2) change rate specific language to reference, but not include, current rates, and (3) update policy, as appropriate.

Report on the Status of all Uncompleted Rulemaking Described on Previous Calendars: These regulations have been proposed to be amended in previous rulemaking calendars; however, they were not amended.

Most of the relocation regulations became effective over two decades ago and have not been updated to remove archaic language (vouchers, telegrams, etc.) or reflect current rates (Federal Standard Mileage Rate, etc.) and/or policy (defines "incidentals" instead of referring to current Internal Revenue Service definition, etc.). CalHR proposes to (1) remove archaic language, (2) change rate specific language to reference, but not include, current rates, and (3) update policy, as appropriate.
